Hiring Team, Blacksmith Agency

At Pixis I owned an 8-client PPC and SEO portfolio, \$15K-\$90K in media spend per client each month, split across Google Ads, Meta, LinkedIn, Amazon Ads and Criteo. I hired and ran the 8-person team behind it and cut client churn 50% through proactive account strategy and vertical retention playbooks, the same portfolio-ownership brief this Growth Marketing Manager role is built around.

At Plug Power I owned \$100K/month in paid budgets across Google Ads, Microsoft Ads, Meta and LinkedIn, closing keyword-strategy gaps that raised organic visibility 35% while paid CPA dropped 25% in the same stretch. Auditing a paid campaign and an SEO strategy side by side, then fixing both, is the exact motion behind that number, and it's the one I would bring to a multifamily, B2B and technical client book.

Sensata gave me the client-facing half: I built sales enablement materials and ran competitor analysis for a 50-rep team, and I know a growth roadmap only holds up once it survives a live pitch. At Applied Materials I automate the repetitive side of forecasting and reporting with AI agents built on Claude, so the hours go into the audit and the recommendation instead of the pivot table.

I would like to bring the PPC and SEO portfolio discipline from Pixis and Plug Power to Blacksmith's client roster. Proof trail at adhi-growth.vercel.app/ref/blacksmith-agency.
