SUMMARY

Product marketer who owns positioning end-to-end, built the GTM for Sensata's new sensing products.

\$2M+ first-year revenue, +35% qualified leads, and messaging that lifted launch conversion 15%. Builds sales enablement that reps actually use, runs competitive intelligence against named players, and is now Strategic Marketing III at Applied Materials, pairing pricing/packaging depth with AI-agent automation on Claude. Comfortable defining a category that does not have a playbook yet, having done it twice: once inside a Fortune 500 pricing org, once founding PriceKeel.
