Hiring Team, Revolut

I am the Founder and CEO of PriceKeel right now, which means the first line of your posting, someone who has built and led a product from inception, is not a hypothetical for me. I designed the guardrail engine and audit trail from a blank page, set up the CRM, CPQ, forecast and pipeline reviews myself, and am running pilots while raising the company's first round. That is the exact motion this Entrepreneur in Residence seat asks for: own a product's full P&L, from strategy and revenue modeling through growth optimization, and carry it end to end.

Before I was building my own product, I was turning an underperforming line inside someone else's. At Sensata, the Bleeders and Leakers program was a margin problem nobody had fully mapped: I built the pricing dashboard, ranked 1,200 opportunities against a \$627M target across 3 regions, then negotiated \$700K plus of that gap closed in two quarters and lifted distributor margins from 53% to 61%. I got promoted from Product and Growth Marketing to Pricing Lead in 10 months on the back of that work, which tells you the P&L ownership was real, not advisory.

The cross-functional reach your posting names, Design, Engineering, Marketing, Legal, FinCrime, maps closely to what I already run. At Applied Materials I partner with Sales, Engineering and Accounts to turn field input into one market view, carrying P&L and revenue targets while automating the repetitive side of that work with AI agents built on Claude. At Pixis I hired and managed an 8-person team across 8 client accounts, carrying P&L while cutting churn 50%. Directing a team and a product roadmap across functions that do not naturally agree is the job I have been doing in every role since 2021, at a large industrial company, a fast-growing AI platform, and now a company I started myself.

What I would bring on day one is a founder's instinct for moving a product from a whiteboard to a P&L, paired with the operating discipline of someone who has run OKRs and quarterly reviews inside a public company. Proof trail at adhithyabhaskar.vercel.app/ref/revolut.
