SUMMARY

Founder and 0-to-1 builder who sizes a vague, undefined market, writes the business case, and ships before waiting for permission. That discipline scales to Dasher and logistics financial products in high-growth environments: running PriceKeel, a fintech-adjacent decision-integrity layer for B2B SaaS deal pricing, through live pilots and a first funding round, structuring the ambiguity solo. Built Sensata's Bleeders and Leakers program from a \$627M target and 1,200 untracked opportunities into a plan that surfaced \$433M in margin gaps and recovered \$700K+ in two quarters. Automates recurring analysis with AI agents built on Claude at Applied Materials.

- Running **live customer pilots** and raising the company's first funding round while also owning CRM, CPQ, forecast and pipeline reviews and deal approvals solo, with an audit trail Finance can read.

Strategic Marketing III, Applied Materials

Jun 2026 - Present

- Sized the **semiconductor market** with Sales, Engineering and Accounts, turning scattered field and technical input into one business case leadership could act on.
- Modeled **value-based pricing and forecasting models** across multiple product groups, tracking demand inflection points so pricing kept pace with a fast-growing market.
- Automated repetitive analysis with **AI agents built on Claude**, freeing time for the P&L and revenue targets the role carries and the weekly/quarterly reviews that run against them.

Pricing Lead, Sensata Technologies

Jul 2025 - May 2026

- Built the FY2026 **Bleeders and Leakers** Power BI dashboard against a \$627M target, turning 1,200 untracked pricing opportunities into a prioritized plan that surfaced \$433M in margin gaps for leadership.
- Recovered **\$700K+ in margin in two quarters** running the negotiations the dashboard pointed to, built on competitive gaps and customer willingness to pay.
- Raised **distributor and channel-partner margins from 53% to 61%** in under two quarters by repricing parts sold through distribution, then carried the model into multimillion-dollar customer quotes.

Product & Growth Marketing, Sensata Technologies

Sep 2024 - Jun 2025

- Owned **GTM for new sensing products** across North America and Europe end to end, concept to launch (positioning, pricing, channel), driving \$2M+ first-year revenue.
- Ran **30+ structured customer interviews** with OEMs and distributors to validate demand before building, feeding insights that lifted CSAT 22% and feature adoption 18%.

Customer Success Manager, Pixis (AI Platform)

Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** for an 8-client, \$15K-\$90K/month portfolio, cutting client churn 50% through proactive account strategy and vertical playbooks.
- Hired and managed an **8-person team** running PPC across international markets and retail media (Amazon Ads, Criteo), reporting recommendations to senior management.

Senior Digital Marketing Analyst, GenY Medium

Jan 2020 - Jun 2021

- Built **dashboards and database audits** that lifted data accessibility 30%, the same ambiguity-to-structure habit behind every build since.

- Tested **3 subscription pricing tiers** against competitor benchmarks and willingness-to-pay signals, then ran 8+ A/B tests and 12+ user interviews that lifted activation 25%.
