Hiring Team, Mommy's Bliss

At Pixis I ran retail media for an 8-client D2C portfolio: Amazon Ads and Criteo campaigns alongside paid search and social, with per-client budgets of $15K to $90K a month. Amplitude and Tableau told us when to shift spend, and that discipline lifted campaign ROAS 40% across 30+ campaigns. Managing the Amazon ad console, Buy Box health and agency relationships for a baby and maternal-care brand reads like the next version of exactly that job, just with one brand's shelf instead of eight clients' accounts.

The other half of your role, website, SEO and AEO, is where I spend the rest of my week. At GenY Medium I rebuilt Google Merchant Center and Meta catalog feeds for D2C brands (16x ROAS) and ran SEO audits across backlinks, keyword gaps and internal linking. At Plug Power I closed keyword-strategy gaps that raised organic search visibility 35%, the same groundwork a Brand Store and product listings need before paid spend can carry its weight.

I also carry budget and agency oversight at scale: $100K/month in paid budgets at Plug Power, built and presented for leadership approval, and an 8-person team running those 8 Pixis accounts. I automate the reporting side of that work now with Claude agents at Applied Materials, so hours go into account decisions instead of pulling numbers by hand.
