

ADHITHYA ROKHITH BHASKAR

Builder | Zero-to-One Products, AI Tooling, Founder Operator

San Francisco Bay Area, CA | +1-929-563-9974 | arokhith@gmail.com | [LinkedIn](#) | [Portfolio](#)

Builder, not an advisor: founds and ships things from a blank page. PriceKeel's guardrail engine and audit trail, an AI job-matching platform (SwipeHire) shipped zero-to-one, and a Python stock-scanner bot with a Claude reasoning layer on live NSE data. Also carries the operating side: P&L targets and cross-functional systems work with Sales, Engineering and Accounts at Applied Materials, and a \$700K+ margin program built on a dashboard system designed from scratch.

SKILLS

Building & Shipping: Zero-to-One Product Build, Python, AI-Assisted Development (Claude, OpenAI API), Internal Tooling & Automation, Rapid Prototyping, Dashboards

Operating: P&L and Revenue Targets, Cross-Functional Systems Work, OKRs, Weekly/Quarterly Business Reviews, Hiring & Team Management

Analytics: SQL, Python (pandas), Power BI, Tableau, A/B Testing, Data Pipelines

Pricing & Monetization: Discount Governance, Deal Approvals, Value-Based Pricing, Margin Recovery

EXPERIENCE

Founder & CEO, PriceKeel

May 2026 - Present

- **Built a guardrail engine from scratch:** it reads a live discount exception and recommends an explainable rule learned from a company's own closed-won and closed-lost deals, no inherited codebase or template to start from.
- Designed the **audit trail** that turns a human pricing decision into evidence Finance can check, the same "make the system check it" instinct this seat asks for.
- Set up and run the company's **CRM, CPQ, forecast reviews and deal approvals** end to end, and am running pilots with early customers while raising the first round.

Strategic Marketing III, Applied Materials

Jun 2026 - Present

- Partner directly with **Sales, Engineering and Accounts** to turn scattered field and technical input into one forecasting system across multiple product groups.
- Automate repetitive analysis with **AI agents built on Claude**, the same pick-up-AI-tooling-fast instinct this role is built around.
- Carry **P&L and revenue targets** for the role and run **OKRs** with weekly and quarterly business reviews.
- Build competitive, **value-based pricing** for a fast-growing market, forecasting its inflection points.

Pricing Lead, Sensata Technologies

Jul 2025 - May 2026

- **Designed and built the FY2026 Bleeders and Leakers Power BI system** from the ground up: 1,200 opportunities ranked against a \$627M target across 3 regions, 4 product families and 20 product lines, the tool that made the next fix visible instead of anecdotal.
- Used what the system surfaced to **recover \$700K+ in margin in 2 quarters** and raise distributor and channel-partner margins from **53% to 61%** by fixing the underlying logic itself.
- **Promoted from Product & Growth Marketing to Pricing Lead in 10 months** after shaping AP26 revenue models and multimillion-dollar customer quotes directly alongside senior executives.
- Ran **leadership decks and OKRs** with weekly and quarterly business reviews that kept the system's data honest.

Product & Growth Marketing, Sensata Technologies

Sep 2024 - Jun 2025

- **Owned GTM** for new sensing products across North America and Europe, driving \$2M+ first-year revenue.
- Defined the **product roadmap** for sensor solutions, managing a 100+ feature backlog with engineering in Agile across 3 regions.

Digital Marketing Manager, Plug Power

Oct 2022 - Jul 2023

- **Hired and managed** marketing team members; owned \$100K/month budgets across business units, with plans and forecasts presented to leadership for approval.

Customer Success Manager, Pixis (AI Platform)

Jul 2021 - Sep 2022

- **Hired and managed an 8-person team** running 8 clients with per-client budgets of \$15K-\$90K/month, carrying P&L targets and cutting client churn 50%.
- Used **Amplitude and Tableau** on user behavior across 30+ campaigns to find what was actually broken in the funnel, lifting ROAS 40%.

Senior Digital Marketing Analyst, GenY Medium

Jan 2020 - Jun 2021

- Ran **database audits** and built dashboards that lifted data accessibility 30% across regional, localization and analytics teams.

PROJECTS

SwipeHire

- **Shipped an AI job-matching platform** zero-to-one (Python, OpenAI API, React): wrote the PRD, scoped the MVP, shipped auto-tailored resumes; hired and managed the team; onboarded 50+ early users.

NSE Paper-Trading Bot

- **Shipped a Python stock scanner** on live NSE data with rule-based technical scoring (EMA, RSI, ATR) and an interactive dashboard, plus a **Claude-based reasoning layer** for news and catalyst analysis alongside automated capital-constraint filtering.

Repo: [adhi-product-ai.vercel.app/ref/moveinsync](https://github.com/adhi-product-ai.vercel.app/ref/moveinsync)

Safran Market Sizing & GTM (Simon Vision Consulting)

- Led a **5-consultant team** from a blank brief to a TAM/SAM/SOM model across 170 facilities, personas across 4 verticals, and presented the finished case to Safran leadership.

EDUCATION

MS in Marketing Analytics (STEM)

Simon Business School, University of Rochester

Leadership: VP of Academic Affairs, Masters Advisory Council.

BE in Mechanical Engineering

Birla Institute of Technology & Science (BITS), Pilani

Venture: Qbox, Content Writer & Business Development Associate.
