SUMMARY

Revenue operations owner who turns pipeline data into action across Salesforce, forecasting and deal approvals. Runs CRM, CPQ, forecast reviews and deal approvals end to end as founder of PriceKeel, and automates recurring revenue analysis with Claude AI agents, the same use-AI-to-eliminate-manual-work habit this role is built around.

EXPERIENCE

Founder & CEO, PriceKeel

May 2026 - Present

- Run the company's **CRM and CPQ configuration**, forecast and pipeline reviews, and deal approvals end to end, the same day-to-day ownership this role asks for over Salesforce process.
- Designed the **audit trail** that gives Finance a documented, explainable record behind every pricing exception, a validation-rule and process-configuration discipline applied to deal governance instead of the CRM directly.
- Running **pilots** with early B2B customers and raising the company's first round, working the same Sales-Finance-Analytics loop this role sits inside.

Strategic Marketing III, Applied Materials

Jun 2026 - Present

- Partner with **Sales, Engineering and Accounts** to build forecasting models across multiple product groups, reconciling field and technical input into one view others can act on.
- Automate repetitive analysis with **AI agents built on Claude**, cutting manual work out of recurring reporting, the exact "use AI to eliminate manual work" mandate this posting names.
- Carry **P&L and revenue targets** for the role, and run **OKRs with weekly and quarterly business reviews** that keep forecast inputs current.

Pricing Lead, Sensata Technologies

Jul 2025 - May 2026

- Built the FY2026 **Bleeders and Leakers Power BI dashboard** covering **1,200 pipeline opportunities** against a \$627M target across 3 regions, 4 product families and 20 product lines, with **win rate, avg \$/win and stage distribution by salesperson**, the exact pipeline-health and rep-productivity reporting this role owns.
- Investigated and closed **\$433M in surfaced margin gaps** down to **\$700K+ recovered in 2 quarters**, tracing each one from dashboard signal to root cause to a negotiated fix.
- Raised **distributor and channel-partner margins from 53% to 61%** by correcting the routing and pricing logic itself so the fix held, not a one-time discount override.
- Shaped **AP26 revenue models** and multimillion-dollar customer quotes alongside senior executives, keeping forecasting inputs and close-date assumptions defensible under review.
- Ran **leadership decks** and OKRs with weekly and quarterly business reviews that kept the pipeline data honest between cycles.

Product & Growth Marketing, Sensata Technologies

Sep 2024 - Jun 2025

- Built **sales enablement** (decks, case studies) for **50+ reps**, lifting win rates **30%** by fixing what reps needed at each pipeline stage.
- Ran **email and paid channel** launch campaigns generating **+35% qualified leads**, then handed them into the same routing and stage logic Sales operated on.

Digital Marketing Manager, Plug Power

Oct 2022 - Jul 2023

- Automated the **WordPress and Pardot lead flow**, cutting cost per lead **50%**, and tied SEM performance to **MQL quality and stage 1 opportunities** so Sales only worked qualified pipeline.
- Automated the **Mar-Tech stack** (Salesforce, Adobe Analytics, GA, Google Tag Manager) for closed-loop reporting, reconciling data quality issues across systems before they reached the funnel report.
- Owned **\$100K/month budgets** across business units, building the forecasts presented to leadership for approval.

Customer Success Manager, Pixis (AI Platform)

Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** for an 8-client, \$15K-\$90K/month portfolio, cutting client churn **50%** through proactive account strategy.
- Used **Amplitude and Tableau** to trace operational issues across **30+ campaigns** to root cause, lifting ROAS **40%**.

PROJECTS

SwipeHire

- Shipped an AI job-matching platform** zero-to-one and owned its GTM and analytics stack (GA4, GTM, event tracking, funnel dashboards), the same instrument-the-funnel discipline this role applies to a revenue pipeline.
