EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Founded and runs go-to-market for **PriceKeel**, a CPQ and deal-desk layer for B2B SaaS covering the quote-to-contract document workflow, defining positioning against legacy CPQ tools in **build-vs-buy** evaluations run by RevOps, Sales leadership and Finance.
- Wrote the first **GTM brief** and pricing narrative from zero, making positioning calls with incomplete data and correcting course directly with early customers while raising the company's first round.
- Built the **AI-driven guardrail engine and audit trail** behind every quote decision, translating what the AI checks and flags into ROI evidence a RevOps leader can defend to a CFO.
- Runs the company's own **CRM and CPQ**, forecast and pipeline reviews, and deal approvals, so every positioning claim is tested against a live quote-to-cash motion, not a slide.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Partners with **Sales, Engineering and Accounts** to size the semiconductor market, turning technical and field input into one pricing and positioning view.
- Builds **competitive, value-based pricing** across multiple product groups, forecasting demand inflection points so pricing keeps pace with the market.
- Runs **AI agents built on Claude** to automate repetitive market and competitive analysis, carrying P&L and revenue targets for the role.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Led the **Bleeders & Leakers** pricing program end to end: a Power BI pipeline of 1,200 opportunities against a $627M target, scored by win rate, avg $/win and stage distribution by salesperson and product line.
- Negotiated **multimillion-dollar customer quotes** and distributor repricing with senior executives, raising channel margins from 53% to 61% in under 2 quarters.
- Recovered **$700K+ in margin in 2 quarters** by building the negotiation playbook sales used against competitive and willingness-to-pay gaps.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Owned **end-to-end GTM** for new sensing products across North America and Europe, positioning, pricing and channel plan included, driving $2M+ first-year revenue.
- Led **product launch campaigns** across email and paid channels, built on a clear demand hypothesis and audience segmentation, driving adoption and expansion that generated +35% qualified leads.
- Built **sales enablement** (decks, case studies, win/loss debriefs) for 50+ reps, lifting win rates 30%.
- Ran **30+ structured customer interviews** with OEMs and distributors, wrote the content brief and set the quality bar for the assets that came out of it, raising CSAT 22%.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Owned **$100K/month marketing budgets** across multiple business units, building the plans and forecasts leadership approved.
- Turned **customer research** into fast messaging and channel changes, lifting conversion 20% and cutting CPA 15%.

Customer Success, Pixis (AI Platform) Jul 2021 - Sep 2022

- Ran an **8-client, 8-person portfolio** carrying P&L and revenue targets, cutting client churn 50% through proactive account strategy and vertical playbooks.
- Kept **enterprise case studies and sales materials** current across the portfolio, supporting a 20% improvement in sales-team performance.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Delivered **16x ROAS** for D2C e-commerce brands by rebuilding Google Merchant Center and Meta catalog feeds.
- Lifted a **B2B e-commerce startup's conversion rate 36%** and revenue 25% through SEO audits and database-driven targeting fixes.

PROJECTS

SwipeHire

- Took an **AI job-matching platform** from PRD to launch (Python, OpenAI API, React) with no playbook to follow, shipping auto-tailored resumes and onboarding 50+ early users.
- Modeled **3 subscription pricing tiers** from competitor teardowns and willingness-to-pay research, then ran 8+ A/B tests that lifted activation 25%.
