SUMMARY

Product marketer who turns **customer interviews and competitive intel** into personas and messaging Sales actually uses, not a deck nobody opens. At Sensata, ran 30+ interviews with OEMs and distributors and built the messaging and enablement behind a 50+ rep rollout that lifted win rates 30%, then owned a sensing-product GTM end to end ($2M+ first-year revenue). Now Strategic Marketing III at Applied Materials, where the AI work is building the Claude agents that run market and competitive analysis, not just prompting one. MS in Marketing Analytics from Simon Business School.

EXPERIENCE

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Builds the **semiconductor market view** Sales, Engineering and Accounts actually use, turning scattered field and technical input into one buyer-ready picture instead of a slide nobody opens.
- Owns **competitive, value-based pricing** for a fast-growing market, tracking inflection points so positioning and price move together instead of drifting apart.
- Builds and ships the **Claude AI agents** that run repetitive market and competitive analysis end to end, not just prompts one off, while carrying P&L and revenue targets.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Owned **end-to-end GTM** for a new sensing product line across North America and Europe, positioning through launch with no existing playbook, driving $2M+ in first-year revenue.
- Turned **30+ customer interviews** with OEMs and distributors into the persona and pain-point findings Engineering acted on directly, raising CSAT 22%.
- Translated **technical specs into buyer-ready messaging** that held up from the spec sheet to the sales call, lifting conversion 15% on priority launches.
- Armed **50+ reps** with the messaging, objection handling and case studies behind a new launch, a content system other teams reused, lifting win rates 30% company-wide.
- Tracked **competitor and customer activity across EMEA and the US**, surfacing purchasing-pattern shifts and share gaps Sales could use before a renewal call.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Drove **+12% YoY revenue and +8% market share** through price-realignment calls built on competitive benchmarking across 10+ rival players, the same read a sharp battlecard runs on.
- Sat with **senior executives on multimillion-dollar customer quotes**, defending positioning and price against real buyer pushback, not a rehearsed objection list.
- Built a **Power BI dashboard tracking 1,200 pricing opportunities** against a $627M target, the kind of reporting that connects deal activity straight back to the business outcome, not a vanity metric.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Controlled **$100K/month marketing budgets** across multiple business units, building the plans and forecasts leadership approved every quarter.
- Turned **customer research** into fast messaging and campaign changes within the same quarter, lifting conversion 20% and cutting CPA 15%.
- Closed **keyword-strategy gaps** across the full portfolio, raising organic search visibility 35% to compound paid reach with owned content.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Cut **client churn 50%** across an 8-client portfolio ($15K-$90K/month spend each) through proactive account strategy and vertical playbooks.
- Kept **enterprise case studies and sales materials** current across every account, supporting a 20% lift in sales team performance.
- Used **Amplitude and Tableau** across 30+ campaigns to read what was working and what was not, lifting ROAS 40%.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Delivered **16x ROAS** for D2C e-commerce brands by rebuilding Google Merchant Center and Meta catalog feeds end to end.
- Bridged **regional marketing and analytics teams** as the main liaison, running market research and SEO audits that improved data accessibility 30%.
- Lifted a **B2B e-commerce startup's conversion rate 36%** and revenue 25% through the same research-to-messaging loop.

PROJECTS

SwipeHire

- Built an **AI job-matching platform** zero-to-one (Python, OpenAI API, React): wrote the PRD, scoped the MVP and shipped the matching engine end to end.
- Modeled **3 subscription pricing tiers** from competitor teardowns and willingness-to-pay signals, the same packaging discipline a content system needs to scale.
- Owned the **full GTM and analytics stack** (GA4, GTM, event tracking, funnel dashboards), running 8+ A/B tests and 12+ interviews that lifted activation 25%.
