SUMMARY

Founder and operator who gets pointed at whatever matters most and turns it into **something made happen**. Founded PriceKeel, an early-stage B2B SaaS deal-pricing company now in pilots, owning everything from the guardrail engine to the first investor round myself: fundraising, vendor and finance operations, and partnerships with no fixed owner. Carries P&L and revenue targets as Strategic Marketing III at Applied Materials and recovered $700K+ in margin in 2 quarters as Pricing Lead at Sensata, comfortable moving from a partner pitch in the morning to a broken process in the afternoon. Hires and manages teams, runs OKR cadences, thinks clearly under ambiguity, and builds alongside whoever is in the room, automating the repetitive work with **AI agents built on Claude**.
