EXPERIENCE

Founder & CEO, PriceKeel

May 2026 - Present

- Founded **PriceKeel**, building a business value framework from the ground up: a guardrail engine that scores discount exceptions against explainable ROI logic drawn from each company's closed-won and closed-lost deals.
- Built the **audit trail** that gives Finance a documented evidence base for every pricing decision, and run the company's CPQ, forecast and pipeline reviews and deal approvals end to end.
- Running **pilots** with early B2B customers and raising the company's first round, testing the business case with the same finance and operations stakeholders an enterprise buyer brings to a deal.

Strategic Marketing III, Applied Materials

Jun 2026 - Present

- Built **competitive, value-based pricing** for a fast-growing semiconductor equipment market, forecasting its inflection points so the business case keeps pace with shifting demand.
- Partner with **Sales, Engineering and Accounts** to build forecasting and market-sizing models across multiple product groups, turning field and technical input into one investment view; carry P&L and revenue targets for the role.
- Automate repetitive pricing analysis with **AI agents built on Claude**, cutting manual work out of recurring number-crunching so more time goes into the business case itself.

Pricing Lead, Sensata Technologies

Jul 2025 - May 2026

- Led **global pricing strategy** for the Industrial BU (a multi-\$100M business), carrying P&L targets while recovering **\$700K+ in margin in 2 quarters** through the Bleeders and Leakers program: negotiations built on competitive gaps and willingness to pay.
- Built the FY2026 **Bleeders and Leakers Power BI dashboard**: 1,200 pricing opportunities ranked against a \$627M target across 3 regions, 4 product families and 20 product lines, surfacing \$433M in margin gaps.
- Raised **distributor and channel-partner margins from 53% to 61%** in under 2 quarters by repricing parts sold through distribution, a fix that held because Sales and Finance both signed off on the underlying logic.
- Shaped **AP26 revenue models**, site-transition strategy and multimillion-dollar customer quotes alongside senior executives, driving +12% YoY revenue and +8% market share through price realignment against 10+ competitors.

Product & Growth Marketing, Sensata Technologies

Sep 2024 - Jun 2025

- Owned **GTM for new sensing products** across North America and Europe, including pricing and channel decisions, driving \$2M+ first-year revenue.
- Ran **30+ customer interviews** with OEMs and distributors to test willingness to pay and quantify pricing friction before launch, the same voice-of-customer input an ROI model needs to hold up under scrutiny.

Digital Marketing Manager, Plug Power

Oct 2022 - Jul 2023

- Owned **marketing budgets of \$100K/month** across multiple business units, building the plans and forecasts presented to leadership for approval, and led bid optimization that cut CPA **25%**.

Customer Success Manager, Pixis (AI Platform)

Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** for an 8-client, \$15K-\$90K/month portfolio, cutting client churn **50%** through proactive account strategy and channel diversification.

Senior Digital Marketing Analyst, GenY Medium

Jan 2020 - Jun 2021

- Delivered **16x ROAS** for D2C e-commerce brands and lifted a B2B startup's revenue **25%** by rebuilding catalog feeds and running database and SEO audits.

PROJECTS

SwipeHire

- Shipped an AI job-matching platform zero-to-one and **modeled 3 subscription pricing tiers** from competitor benchmarks and willingness-to-pay signals, the same investment-case discipline a business value strategist has to defend to Finance.
