EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Built a **guardrail engine** that scores discount exceptions against explainable ROI logic learned from a company's own closed-won and closed-lost deals, challenging the assumption behind every exception before it reaches a quote.
- Modeled the **business case** behind every discount exception, the financial backbone deal teams and Finance need before a pricing policy ships, not after.
- Running **pilots** with early B2B customers and raising the first round while running the company's own CRM, CPQ, forecast reviews and deal approvals end to end.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Builds **competitive, value-based pricing** for a fast-growing semiconductor market, forecasting inflection points so the pricing strategy keeps pace with demand instead of lagging it.
- Partners with **Sales, Engineering and Accounts** to turn ambiguous field and technical input into one forecasting model across multiple product groups when the data runs thin.
- Automates repetitive pricing analysis with **AI agents built on Claude**, carrying P&L and revenue targets and running the OKR cadence behind every leadership deck.

- Recovered **$700K+ in margin in 2 quarters** by leading the Bleeders and Leakers program, challenging distributor assumptions against competitive gaps and customer willingness to pay before refining the offer.
- Shipped the **FY2026 Bleeders and Leakers Power BI dashboard**: 1,200 pricing opportunities evaluated against a $627M target across 3 regions and 20 product lines, surfacing $433M in margin gaps for leadership to prioritize.
- Raised **distributor and channel-partner margins from 53% to 61%** in under 2 quarters by repricing parts sold through distribution across acquisition and retention economics alike.
- Shaped **AP26 revenue models and multimillion-dollar customer quotes** alongside senior executives, building forecasts and financial models that held up under scrutiny when the data was ambiguous.
- Drove **+12% YoY revenue and +8% market share** through price realignment benchmarked against 10+ competitors across multiple customer segments.
