EXPERIENCE

Founder & CEO, PriceKeel

May 2026 - Present

- Designed an **explainable discount guardrail engine** learned from each customer's own closed-won and closed-lost deals, the same packaging-and-offer governance problem a subscription business runs at scale.
- Gives Finance an **auditable evidence trail** for every pricing decision, selling against legacy CPQ and deal-desk tooling to RevOps, Sales leadership and Finance.
- Runs the company's own **CRM, CPQ, forecast and pipeline reviews, and deal approvals** while running pilots and raising its first round.

Strategic Marketing III, Applied Materials

Jun 2026 - Present

- Builds **competitive, value-based pricing** for a fast-growing market, forecasting its inflection points so pricing keeps pace with demand instead of lagging it.
- Runs **forecasting and market-sizing models** across multiple product groups, turning Sales, Engineering and Accounts input into one pricing view.
- Automates **repetitive pricing and revenue analysis with AI agents built on Claude**, the same hypothesis-driven analysis this role runs on subscription data.

Pricing Lead, Sensata Technologies

Jul 2025 - May 2026

- Led **global pricing strategy** for a multi-\$100M Industrial BU, carrying P&L and revenue targets across multiple product lines and packaging tiers.
- Recovered **\$700K+ in margin in 2 quarters** via the Bleeders & Leakers program: negotiations built on competitive gaps and customer willingness-to-pay signal, not list price alone.
- Raised **distributor and channel-partner margins from 53% to 61%** in under 2 quarters by repricing parts sold through distribution, the packaging-and-offer discipline a subscription tier rebuild needs.
- Built the FY2026 **Bleeders & Leakers Power BI dashboard** ranking 1,200 pricing opportunities against a \$627M target across 3 regions and 20 product lines, surfacing \$433M in margin gaps for leadership to prioritize.
- Modeled **AP26 revenue scenarios and multimillion-dollar customer quotes** with senior executives, the same executive business-case work this role presents to Senior Directors and VPs.

Product & Growth Marketing, Sensata Technologies

Sep 2024 - Jun 2025

- Owned **GTM pricing and channel strategy** for new sensing products across North America and Europe, driving \$2M+ first-year revenue.
- Ran **30+ customer interviews** with OEMs and distributors to size willingness-to-pay and find pricing friction, insights that drove product and packaging changes raising CSAT 22%.

Digital Marketing Manager, Plug Power

Oct 2022 - Jul 2023

- Owned **\$100K/month marketing budgets** across multiple business units, building the plans and forecasts presented to the leadership team for approval.
- Ran **bid optimization and A/B testing** across Google Ads, Microsoft Ads, Meta and LinkedIn, delivering -25% CPA, the same hypothesis-driven test discipline a pricing experiment needs.

Customer Success Manager, Pixis (AI Platform)

Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** across an 8-client, 8-person-team portfolio with per-client budgets of \$15K-\$90K/month.
- Cut **client churn 50%** through proactive account strategy and vertical playbooks, the member-retention math a packaging change is ultimately measured against.

Senior Digital Marketing Analyst, GenY Medium

Jan 2020 - Jun 2021

- Delivered **16x ROAS** for D2C e-commerce brands and lifted a B2B startup's conversion rate 36% by rebuilding feed and catalog infrastructure.

PROJECTS

Optimal Pricing Prediction Model

- Built **R-based pricing optimization models** using linear regression to forecast demand elasticity and identify profit-maximizing price points across product feature scenarios, the same elasticity work a subscription tier redesign runs.
