Analytics: SQL, Power BI, Tableau, Excel (advanced), PowerPoint, Python (pandas), R, Regression, A/B Testing

EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Founded **PriceKeel**, a decision-integrity layer for B2B SaaS deal pricing that turns a live discount exception into an explainable pricing recommendation learned from each company's own closed-won and closed-lost deals.
- Built the **audit trail** that gives Finance and Deal Desk defensible evidence for every pricing call, and run the company's CRM/CPQ, forecast and pipeline reviews and deal approvals end to end.
- **Running pilots** with early B2B customers and raising the company's first round, modeling every new pricing rule against the complexity it creates for the existing customer base before it reaches a decision-maker.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Build **competitive, value-based pricing** for a fast-growing, highly technical semiconductor equipment market, forecasting demand inflection points so packaging and pricing move ahead of the market, not behind it.
- **Partner with Sales, Engineering and Accounts** to turn field and technical input into one pricing strategy and forecasting model across multiple product groups, carrying P&L and revenue targets for the role.
- Automated repetitive pricing analysis with **AI agents built on Claude**, freeing time for the hypothesis-test-recommend work that actually drives an exec-level pricing decision.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Led **global pricing strategy** for the Industrial BU (a multi-$100M business) across multiple product lines, carrying P&L and revenue targets and setting the cross-functional pricing agenda with Product, Sales and Finance.
- Recovered **$700K+ in margin in 2 quarters** running the Bleeders & Leakers program: built pricing hypotheses from competitive gaps and customer willingness-to-pay data, validated them with Sales and Finance, then operationalized the fix.
- Built the FY2026 Bleeders & Leakers **Power BI dashboard** ranking 1,200 pricing opportunities against a $627M target across 3 regions and 4 product families, surfacing **$433M in margin gaps** for leadership to prioritize.
- Developed **AP26 revenue models** with senior executives, plus site transition strategies and multimillion-dollar customer quotes, communicating pricing concepts clearly to influence EVP/SVP stakeholders and align leadership on next steps.
- Raised distributor and channel-partner margins **from 53% to 61%** and drove +12% YoY revenue and +8% market share through price realignment against 10+ competitors.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Owned **GTM pricing and channel strategy** for new sensing products across North America and Europe, driving $2M+ first-year revenue through cross-functional work with Sales and Engineering.
- Ran **30+ customer interviews** with OEMs and distributors to test willingness to pay and surface pricing friction before launch, feeding directly into packaging and channel-pricing strategy.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Owned **marketing budgets of $100K/month** across multiple business units, building the financial models and forecasts presented to the leadership team for approval.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** for an 8-client, $15K-$90K/month portfolio, cutting client churn **50%** through proactive account strategy and channel diversification.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Delivered **16x ROAS** for D2C e-commerce brands and lifted a B2B startup's revenue **25%** by rebuilding catalog feeds and running database and SEO audits.

PROJECTS

SwipeHire

- Shipped an AI job-matching platform zero-to-one and **modeled 3 subscription pricing tiers** from competitor benchmarks and willingness-to-pay signals, the same packaging-and-SKU tradeoff a Pricing Strategy Manager maps across a product portfolio.
