SUMMARY

Founder and operator who turns scattered business data into the **structured reports and recommendations** a founder can act on same day. Runs PriceKeel (B2B SaaS deal pricing, in pilots and raising its first round) end to end while carrying P&L and revenue targets as Strategic Marketing III at Applied Materials. Has already built the muscle this seat needs: management dashboards that turned 1,200 scattered pricing opportunities into one tracked program at Sensata, fundraising and investor materials for PriceKeel's own round, and cross-functional execution across teams with no formal authority over any of them. Automates repetitive analysis with **AI agents built on Claude**.

EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Own the company's full **management reporting and operating rhythm** myself: CRM/CPQ, forecast and pipeline reviews, and deal approvals, translating raw deal data into the few metrics that matter for a go/no-go call.
- Shaped the **investor narrative, financial model and audit trail** behind the company's first fundraising round, coordinating data-room materials and investor updates with no finance team to lean on.
- Running **pilots with early customers** while raising that round, the single point of accountability for product, customer and investor decisions at once.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Partner with **Sales, Engineering and Accounts** to consolidate scattered field and technical input into one management view of a fast-growing semiconductor market.
- Run the **OKR cadence** with weekly and quarterly business reviews, tracking key metrics, investigating deviations from target and turning data into recommendations rather than raw reports.
- Carry **P&L and revenue targets** for the role, building forecasting and market-sizing models across multiple product groups.
- Automate repetitive analysis work with **AI agents built on Claude**, freeing time for the judgment calls a dashboard cannot make.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Shaped **AP26 revenue models** and site-transition strategy with senior executives for a multi-$100M Industrial BU, building the financial analyses behind the leadership team's planning and budgeting decisions.
- Ran **leadership decks and the OKR cadence** (weekly and quarterly business reviews), escalating deviations and risks to leadership with proposed fixes.
- Headed the **Bleeders and Leakers margin program** end to end: built the Power BI dashboard scoring 1,200 pricing opportunities against a $627M target, then recovered $700K+ in margin in 2 quarters.
- **Promoted to Pricing Lead** from Product and Growth Marketing in 10 months, taking on P&L ownership and executive-facing financial analysis ahead of the standard track.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Owned **GTM for new sensing products** across North America and Europe, positioning, pricing, channel and launch decisions that drove $2M+ first-year revenue.
- Drove the cross-functional **product roadmap** across 3 regions, owning a 100+ feature backlog with Engineering and clearing cross-team blockers.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Hired and managed the **marketing team** while owning $100K/month budgets across multiple business units, building the plans and forecasts presented to leadership for approval.
- Automated the **WordPress and Pardot** lead flow and the broader Mar-Tech stack, closing a reporting gap as the business scaled.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Hired and managed an **8-person team** running 8 client accounts with $15K-$90K monthly budgets each, carrying P&L targets and cutting client churn 50%.
- Delivered **leadership decks** and ran OKRs with weekly and quarterly business reviews, reporting recommendations directly to senior management.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Acted as the **main liaison** between regional marketing managers, localization and analytics teams, resolving cross-functional handoffs with no formal authority over any of them.

PROJECTS

SwipeHire

- Grew and managed the **SwipeHire team**, built board decks and ran OKRs while shipping an AI job-matching platform zero-to-one (Python, OpenAI API, React).

Safran Market Sizing & GTM (Simon Vision Consulting)

- Led a **5-consultant team** narrowing TAM/SAM/SOM from 170 facilities to a SAM of 28 across 150+ target facilities and 10+ competitors, presenting findings and market-entry recommendations to Safran leadership.
