SUMMARY

Customer success and revenue-operations builder who cut **client churn 50%** running an 8-person team across 8 accounts at Pixis. Carries P&L and revenue targets on every portfolio since, and built Sensata's Bleeders and Leakers dashboard, segmenting 1,200 opportunities across 3 regions and 20 product lines against a $627M target, surfacing $433M in margin gaps for leadership and frontline teams. Finds the usage patterns behind activation, retention and churn: KPI frameworks across 50K+ connected devices lifted feature adoption 18%, and 30+ customer interviews raised CSAT 22%. Builds PriceKeel's strategy and operations function (CRM, CPQ, approval workflow, audit trail) from the ground up, and automates recurring analysis with Claude AI agents as Strategic Marketing III at Applied Materials. MS in Marketing Analytics.

EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Founded **PriceKeel**, building its customer strategy and operations function from the ground up: CRM, CPQ, quote-to-approval workflow, deal approvals and a Finance audit trail, run end to end before handing any of it to a hire.
- Designed the **guardrail engine** behind it, a discount rule learned from each company's own closed-won and closed-lost deals, the same signal-to-play logic a CS org turns usage data into expansion or save motions, while running pilots and raising its first round.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Builds **forecasting and market-sizing models** across multiple product groups, forecasting demand inflection points so coverage keeps pace as the business scales.
- Automates repetitive analysis with **AI agents built on Claude**, turning a weekly manual pull into a flagged-exception review.
- Runs the **OKR cadence** with weekly and quarterly business reviews, building leadership decks and carrying P&L and revenue targets across the role.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Segments **1,200 pricing opportunities** into the FY2026 Bleeders and Leakers Power BI dashboard across 3 regions, 4 product families and 20 product lines against a $627M target, with win-rate and stage-distribution views for frontline teams and leadership.
- Surfaced **$433M in margin gaps** from that segmentation, so leadership could prioritize by salesperson and product line instead of chasing anecdotes.
- Recovered **$700K+ in margin in 2 quarters** leading the Bleeders and Leakers program, building the business case deal by deal from competitive gaps and customer willingness to pay.
- Raised **distributor and channel-partner margins from 53% to 61%** in under 2 quarters by repricing renewal terms sold through distribution.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Mined **KPI frameworks in SQL and GA4** across 50K+ connected industrial devices, finding high-intent cohorts and adoption signals that lifted feature adoption 18%.
- Ran **30+ customer interviews** with OEMs and distributors to find pain points, feeding insights that raised CSAT 22%.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Tested **15+ A/B experiments** across 50+ inbound campaigns with clear hypotheses and control groups, tying results to MQL quality and stage 1 opportunities.
- Presented **$100K/month marketing budgets** to leadership for approval, building the plans and forecasts behind them.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Hired and managed an **8-person team** running 8 client accounts with per-client budgets of $15K-$90K/month, carrying P&L and revenue targets across the portfolio.
- Cut **client churn 50%** through proactive account strategy, channel diversification and vertical playbooks, turning account signals into repeatable retention plays.
- Reported recommendations to **senior management** and fed voice of customer back to Product, running OKRs with weekly and quarterly business reviews.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Turned **database audits** into dashboards that improved data accessibility 30%, while liaising between regional marketing, localization and analytics teams.

PROJECTS

SwipeHire

- Ran **8+ A/B tests** and 12+ user interviews on an AI job-matching platform (Python, OpenAI API, React), improving activation 25% by turning usage signals into onboarding tweaks.
