ADHITHYA ROKHITH BHASKAR

Customer Success Strategy & Operations | Retention, Health Scoring, CRM & Process Design

San Francisco Bay Area, CA | +1-929-563-9974 | arokhith@gmail.com | LinkedIn | Portfolio

SUMMARY

Customer Success operator who **cut client churn 50%** leading an 8-person team at Pixis. Built the dashboard that recovered $700K+ in margin at Sensata by catching account risk before it became churn, and runs CRM, forecasting and health-score analysis in SQL, Power BI and HubSpot across B2B SaaS and industrial accounts, automating the repetitive work with Claude AI agents so renewal and retention calls get the hours.

SKILLS

Customer Success & Revenue Operations: Customer Segmentation, Onboarding & Lifecycle Workflows, Health Scoring & Early-Warning Dashboards, Renewal & Retention Strategy, Account Transitions, Capacity & Headcount Planning, CRM & CPQ Configuration (Salesforce, HubSpot), Forecast & Pipeline Reviews, Change Management
Analytics: SQL, Python (pandas, NumPy), Power BI, Tableau, Amplitude, Cohort & Funnel Analysis, Regression, A/B Testing
Strategy & Planning: Market Sizing (TAM/SAM/SOM), P&L and Revenue Target Setting, Collaborates Cross-Functionally (Sales, Product, Finance)
Leadership & Operating: Leadership & Board Decks, Operating Cadence (OKRs, Weekly/Quarterly Reviews), AI Agents (Claude), Team Hiring & Management

EXPERIENCE

Strategic Marketing III, Applied Materials Jun 2026 - Present

- **Owned market sizing end-to-end** for a fast-growing semiconductor segment, collaborating with Sales, Engineering and Accounts to define and refine the one view leadership used to plan headcount and investment.
- **Built forecasting and pricing models** across multiple product groups, defining the metrics that told leadership when a market was about to inflect.
- **Automated repetitive analysis work with AI agents built on Claude**, freeing hours for the judgment calls that process design and strategy actually need.
- **Carried P&L and revenue targets** for the role, running the leadership decks and the weekly and quarterly business reviews that turned raw numbers into decisions.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- **Shipped the Bleeders and Leakers dashboard**, an early-warning system segmenting 1,200 pricing opportunities against a $627M target across 3 regions, 4 product families and 20 product lines, flagging $433M in margin gaps before they became losses.
- **Recovered $700K+ in margin in 2 quarters** running that program, catching at-risk accounts early and negotiating from competitive and willingness-to-pay data instead of gut calls.
- **Optimized distributor and channel-partner margins**, raising them from 53% to 61% in under 2 quarters, the kind of account-health turnaround a renewal motion depends on.
- **Drove +12% YoY revenue and +8% market share** through price realignment, partnering with senior executives on AP26 revenue models, site-transition strategy and multimillion-dollar customer quotes.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- **Owned GTM for new sensing products** across North America and Europe end to end, from positioning through onboarding and channel rollout, driving $2M+ in first-year revenue.
- **Designed KPI frameworks and reporting tools in SQL and GA4** across 50K+ connected industrial devices, supporting the adoption signals that lifted feature adoption 18%, the same signal-to-action loop a health score runs on.
- **Ran 30+ customer interviews** with OEMs and distributors to surface friction in the post-sale journey, then used the findings to reshape the roadmap and lift CSAT 22%.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- **Planned $100K/month marketing budgets** across multiple business units, building the capacity models and forecasts that leadership approved each quarter.
- **Automated the WordPress and Pardot lead flow** end to end, cutting cost per lead 50% and giving the team a repeatable process instead of manual handoffs.

Customer Success, Pixis (AI Platform) Jul 2021 - Sep 2022

- **Hired and managed an 8-person Customer Success team** across 8 client accounts, each carrying its own P&L and revenue targets, sizing the book the way a capacity plan has to.
- **Cut client churn 50%** by diagnosing the real risk driver behind each account first, then implementing process improvements across account strategy, channel diversification and vertical playbooks that fixed it before renewal.
- **Tracked account health signals in Amplitude and Tableau** across 30+ campaigns, the same proactive monitoring a health-score program runs on, lifting ROAS 40% and feeding voice-of-customer insight back to product.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- **Audited databases and built dashboards** that raised data accessibility 30%, the reporting discipline CRM and health-score systems depend on.

PROJECTS

Safran Market Sizing & GTM (Simon Vision Consulting)

- **Broke an ambiguous market-entry question** into a structured TAM/SAM/SOM model, taking 170 facilities down to a serviceable market of 28 across 4 verticals, leading a 5-consultant team through the process.
- **Analyzed 150+ target facilities and 10+ competitors**, structuring the pricing and market-entry recommendation presented directly to Safran's leadership team.
