SUMMARY

Pricing and **commercialization** builder who runs SKU, CPQ and discount governance as one system, not three handoffs. At PriceKeel, the decision-integrity layer for B2B SaaS deal pricing I founded, I own the CRM/CPQ, deal approvals and the audit trail that gives Finance evidence for every discount exception, the exact SKU-to-CPQ governance problem this role owns. At Sensata, I built the FY2026 Bleeders and Leakers Power BI dashboard ranking 1,200 pricing opportunities against a $627M target, surfacing $433M in margin gaps and tracking realized price versus list by product line. I also automate repetitive pricing analysis at Applied Materials with Claude AI agents. MS in Marketing Analytics with an Advanced Pricing Certification.

EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Set up and run the company's **CRM and CPQ**, including pricing rules, deal approvals and forecast and pipeline reviews, for PriceKeel, a decision-integrity layer for B2B SaaS deal pricing I founded.
- Designed the **audit trail** that gives Finance evidence for every discount decision, selling against legacy CPQ and deal-desk tooling to RevOps and Sales leadership, the same governance gap a commercialization playbook has to close.
- Built a guardrail engine recommending an **explainable discount guardrail** learned from each company's own closed-won and closed-lost deals; running pilots while raising the company's first round.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Build **competitive, value-based pricing** for a fast-growing semiconductor market, forecasting its inflection points so pricing keeps pace with demand across multiple product groups.
- Sized the **semiconductor market** with Sales, Engineering and Accounts, turning field and technical input into forecasting models that carry the role's P&L and revenue targets.
- Automated repetitive pricing analysis with **AI agents built on Claude**, cutting manual work out of recurring reports, the automation-first instinct this role asks for in SKU and commercialization processes.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Led **global pricing strategy** for the Industrial BU (a multi-$100M business) across 3 regions, 4 product families and 20 product lines, carrying P&L and revenue targets.
- Built the FY2026 Bleeders and Leakers **Power BI dashboard** ranking 1,200 pricing opportunities against a $627M target, tracking realized price versus list and discounting patterns, and surfacing $433M in margin gaps by product line.
- Recovered **$700K+ in margin in 2 quarters** running the Bleeders and Leakers program: cross-functional negotiations with Sales and Finance built on competitive gaps and customer willingness to pay.
- Raised distributor and channel-partner margins **from 53% to 61%** by repricing the catalog logic sold through distribution, partnered with senior executives on multimillion-dollar customer quotes, and drove **+12% YoY revenue and +8% market share** against 10+ competitors.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Owned **GTM, pricing and channel strategy** for new sensing products across North America and Europe, from requirements through launch, driving $2M+ first-year revenue.
- Ran **30+ customer interviews** with OEMs and distributors to test willingness to pay and surface pricing friction before launch, then built the KPI framework in SQL and GA4 that tracked adoption against it.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Owned **marketing budgets of $100K/month** across multiple business units, building the plans and forecasts for leadership approval, and led Paid Search/Paid Social bid optimization that cut CPA **25%** across Google, Microsoft and Meta.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** for an 8-client, $15K-$90K/month portfolio, hiring and managing the 8-person team that ran it and cutting client churn **50%** through proactive account strategy and channel diversification.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Delivered **16x ROAS** for D2C e-commerce brands and lifted a B2B startup's revenue 25% by rebuilding catalog feeds and running database and SEO audits.

PROJECTS

SwipeHire

- Shipped an **AI job-matching platform** zero-to-one, writing the PRD and scoping the MVP from requirements through launch, then modeled 3 subscription pricing tiers from competitor and willingness-to-pay benchmarks, the same requirements-to-packaging loop a commercialization process runs per SKU.
