SUMMARY

Product marketer and founder who has run the **Pardot, HubSpot and Salesforce stacks** MOps teams are leaving, not just pitching against them. Owned Sensata's go-to-market for a new sensing product line from zero (positioning, pricing, channel, launch) to \$2M+ in first-year revenue, then built the sales enablement that lifted win rates 30% across 50+ reps and the messaging that lifted conversion 15%. Automated a manual Pardot lead flow at Plug Power, cutting cost per lead 50%, and now automates repetitive market research with AI agents built on Claude as Strategic Marketing III at Applied Materials. MS in Marketing Analytics from Simon Business School.

EXPERIENCE

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Automates **repetitive market and pricing research** with AI agents built on Claude, the same AI-workflow habit a fast-shipping product marketing team needs to keep pace without slowing down.
- Partners across **Sales, Engineering and Accounts** to size a fast-growing semiconductor market, turning technical and field input into one view that shapes positioning and pricing.
- Shapes **competitive, value-based pricing** for that market, forecasting its inflection points so messaging and pricing stay in step with demand.
- Carries **P&L and revenue targets** while building leadership decks and running OKRs with weekly and quarterly business reviews.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Owned **GTM for a brand-new sensing product line** from zero across North America and Europe (positioning, pricing, channel, launch), driving \$2M+ in first-year revenue with no existing motion to inherit.
- Turned **technical sensor specs into customer-value language**, lifting conversion 15% on priority launches and giving reps proof the new story worked.
- Built **sales enablement** (decks, battlecards, case studies) for 50+ reps, lifting win rates 30% against established competitors.
- Ran **30+ structured customer interviews** with OEMs and distributors, feeding pain points straight into messaging and the roadmap and raising CSAT 22%.
- Tracked **KPI frameworks in SQL and GA4** across 50K+ connected devices, surfacing high-intent cohorts that lifted feature adoption 18%.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Drove **+12% YoY revenue and +8% market share** through price-realignment decisions benchmarked against 10+ competitors, the same competitive read a positioning team needs against entrenched incumbents.
- Negotiated **multimillion-dollar customer quotes** and AP26 revenue models with senior executives while raising distributor margins from 53% to 61%.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Rebuilt a **manual WordPress-to-Pardot lead handoff** into an automated flow, cutting cost per lead 50% inside the exact stack enterprise MOps teams are moving off of.
- Unified the **Salesforce, Adobe Analytics, GA and Google Tag Manager stack** for closed-loop reporting across the full funnel.
- Raised **organic search visibility 35%** by fixing weak keyword coverage while owning \$100K/month budgets across multiple business units.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Cut **client churn 50%** across an 8-person team managing 8 clients (\$15K-\$90K/month each) through proactive account strategy and vertical playbooks.
- Kept **enterprise case studies and sales material** current, supporting a 20% improvement in sales team performance, the same high-volume enablement workload this role runs week over week.
- Expanded **PPC across international, non-English markets** and retail media (Amazon Ads, Criteo), widening the channel mix across the same 8-client portfolio.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Delivered **16x ROAS** for D2C e-commerce brands by rebuilding Google Merchant Center and Meta catalog feeds.
- Bridged **regional marketing, localization and analytics teams** as the main liaison, running database audits that lifted data accessibility 30%.

PROJECTS

SwipeHire

- Shipped an **AI job-matching platform** zero-to-one (Python, OpenAI API, React): wrote the PRD, scoped the MVP, and onboarded 50+ early users without a team to lean on.
- Defined the **ICP and ran competitor teardowns** from scratch, instrumented the GA4/GTM funnel stack, and ran 8+ A/B tests and 12+ user interviews that lifted activation 25%.
- Modeled **3 subscription pricing tiers** from competitor benchmarks and willingness-to-pay signals.
