ADHITHYA ROKHITH BHASKAR

Pricing Optimization & Analytics | Founder, PriceKeel | Elasticity & Scenario Modeling, Promotional Analytics, AI-Pricing-Agent Quality Review

San Francisco Bay Area, CA | +1-929-563-9974 | arokhith@gmail.com | LinkedIn | Portfolio

SUMMARY

Pricing analyst and founder who has run **pricing models and scenario analyses**, recovering $700K+ in margin in 2 quarters at Sensata. Raised distributor margins from 53% to 61% in the same stretch and built the FY2026 Bleeders and Leakers Power BI dashboard, tracking 1,200 pricing opportunities and surfacing $433M in margin gaps for leadership to act on. Automates repetitive pricing analysis with **Claude AI agents** as Strategic Marketing III at Applied Materials, applying the same quality-check rigor to AI-generated outputs that an AI-enabled pricing function asks for before they inform a decision. Founder and CEO of PriceKeel, a decision-integrity layer for B2B SaaS deal pricing now in pilots, and holds an MS in Marketing Analytics from Simon Business School.

SKILLS

Pricing & Monetization: Price Elasticity, Value-Based Pricing, Willingness-to-Pay Research, Channel/Distributor Pricing, Discount Governance, Margin Recovery, Competitive Benchmarking, Global Price Strategy
Revenue Operations: Forecasting Models, Forecast & Pipeline Reviews, Deal Desk, CRM & CPQ Configuration, Win-Rate & Pipeline-Stage KPIs
Analytics: SQL, R, Regression, Power BI, Tableau, Excel (advanced), A/B & Multivariate Testing, Cohort & Funnel Analysis
Product Marketing & Strategy: Market Research, Competitive Intelligence, GTM Strategy, Case Studies & Sales Decks
Tools: AI Agents (Claude), Google Merchant Center, Meta Catalog, Jira, Confluence, Notion

EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Founded **PriceKeel**, a decision-integrity layer for B2B SaaS deal pricing that reviews an AI-flagged discount exception before it reaches a live deal, the same quality-check step this role applies to pricing-agent outputs before they inform a pricing decision.
- Designed the **guardrail engine and audit trail** that give Finance an explainable record behind every AI-recommended discount, documenting where a model's output falls short the way ongoing pricing-agent training and documentation work asks.
- Runs the company's **CRM, CPQ configuration, deal approvals and forecast-and-pipeline-review cadence** end to end while running pilots and raising its first round.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Builds **competitive, value-based pricing** for a fast-growing semiconductor market, forecasting its inflection points across multiple product groups the way elasticity inputs and sensitivity parameters keep a pricing model current as conditions shift.
- Automates repetitive pricing and forecasting analysis with **AI agents built on Claude**, then reviews every output with the human-oversight rigor an AI-partnership mindset asks for before outputs inform a pricing decision.
- Carries **P&L and revenue targets** while building leadership decks and running OKRs with weekly and quarterly business reviews, the clean, well-organized analytical materials a pricing team assembles for its own stakeholders.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Recovered **$700K+ in margin in 2 quarters** leading the Bleeders and Leakers program: running pricing models and scenario analyses, then prioritizing recovery by competitive gaps and customer willingness to pay.
- Raised **distributor and channel-partner margins from 53% to 61%** in under 2 quarters by repricing parts sold through distribution, the promotional and channel-pricing work an assigned category calls for.
- Built the FY2026 **Bleeders and Leakers Power BI dashboard**, tracking 1,200 pricing opportunities against a $627M target across 3 regions and surfacing $433M in margin gaps, the in-season monitoring and variance-flagging a pricing-optimization seat runs on its own categories.
- Flagged line items for a BU-wide **Power BI price-increase model** where a price change could lift profitability more than 50%, applying the sensitivity and scenario logic a manager directs.
- Drove **+12% YoY revenue and +8% market share** through price realignment informed by competitive benchmarking across 10+ key players, then built the leadership decks that carried that analysis into business reviews.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Owned **GTM for new sensing products** across North America and Europe, including pricing and channel structuring, driving $2M+ first-year revenue.
- Ran **30+ customer interviews** with OEMs and distributors to test willingness to pay and pricing tolerance ahead of launch, the promotional-effectiveness groundwork a pricing team validates before a price change ships.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Presented **marketing budgets of $100K/month** across multiple business units to leadership for approval, preparing the data pulls and summaries behind every number.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** managing an 8-person team across 8 client accounts, cutting client churn 50% through proactive account strategy and vertical playbooks.
- Delivered **3x ROAS in one month** for a leading fashion brand through full-funnel restructuring: shopping feed cleanup, smart bidding, creative refresh and lookalike expansion.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Rebuilt **Google Merchant Center and Meta catalog feeds** for D2C e-commerce brands, delivering 16x ROAS.

PROJECTS

Optimal Pricing Prediction Model

- Built **R-based pricing optimization models** using linear regression to forecast demand elasticity and identify profit-maximizing price points across product feature scenarios, the sensitivity and scenario modeling a pricing-optimization seat runs under a manager's direction.
