EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Built PriceKeel **zero to one**: scoped the product, built the guardrail engine and audit trail, and shipped it as a live discount exception inside the deal platform, with no team to hand pieces off to.
- Set up the **CRM, CPQ and deal-approval workflow** from scratch and built the business model from zero, selling against legacy tooling to RevOps, Sales leadership and Finance.
- Running **pilots with early customers** and raising the company's first round, taking the initiative from idea to execution without waiting for a mandate.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Drives **alignment across Sales, Engineering and Accounts** to turn scattered field input into one market-sizing view for a fast-growing semiconductor segment, a problem with no single owner.
- Builds **forecasting and value-based pricing models** across multiple product groups, converting signal into the inflection points leadership plans against.
- Owns the **business operating rhythm**: sets targets, runs the leadership decks, and drives the weekly and quarterly business reviews that keep P&L and revenue targets on track.
- Looks for places to make the work **AI-native**, automating repetitive research and analysis with AI agents built on Claude.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Took the **Bleeders and Leakers program** end to end: built a Power BI dashboard finding the leak across 1,200 pricing opportunities and a $627M target, surfacing $433M in margin gaps for leadership to prioritize.
- Carried the outcome, not just the analysis: **negotiated the recovery** directly, closing $700K+ in margin in 2 quarters.
- Shaped **AP26 revenue models and site-transition strategy** with senior executives, moving ambiguous strategic questions to multimillion-dollar customer quotes.
- **Promoted to Pricing Lead in 10 months** after raising distributor and channel-partner margins from 53% to 61%.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Launched **end-to-end GTM** for new sensing products across North America and Europe, positioning, pricing, channel and launch, generating $2M+ in first-year revenue.
- Drove a **100+ feature roadmap** with Engineering in Agile across 3 regions, cutting time-to-market 20%.
- Conducted **30+ customer interviews** with OEMs and distributors, raising CSAT 22%.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- **Hired and managed** a marketing team, then built the plans and forecasts presented to the leadership team for budget approval.
- Directed **$100K/month in budgets** across multiple business units, tying every spend decision to a measurable outcome.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- **Hired and managed an 8-person team** running 8 client accounts, finding the leak in churn and cutting it 50% through retention initiatives.
- Built **leadership decks and OKR reviews** (weekly and quarterly), reporting straight to senior management.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Acted as the **main liaison across regional marketing, localization and analytics teams** on D2C e-commerce accounts.
- Turned **database audits into dashboards** that improved data accessibility 30%, the kind of groundwork that surfaces a funnel leak before it costs revenue.

PROJECTS

SwipeHire

- Shipped **an AI job-matching platform zero to one** (Python, OpenAI API, React): wrote the PRD, scoped the MVP, and hired and managed the team that got it to 50+ early users.
- Steered **board decks and OKR reviews** (weekly and quarterly) while owning the ICP and positioning decisions end to end.
