EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Founded PriceKeel, a **decision-integrity layer for B2B SaaS deal pricing** that reads a live discount exception inside the deal platform, the same packaging-and-discount governance question this req raises for Pricing Committee review.
- Designed a **guardrail engine** and an **audit trail Finance can review**, documenting the pricing decision and its evidence so exceptions cascade cleanly to CRM/CPQ instead of living in email threads.
- Set up the company's own **CRM and CPQ, deal approvals, and forecast and pipeline reviews**, running pilots with early customers while raising the first round.
- Scoping the next build: a **margin layer** on top of the guardrail engine.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Shape **competitive, value-based pricing** for a fast-growing market, forecasting its inflection points so pricing keeps pace with demand.
- Built **forecasting and market-sizing models** across multiple product groups, carrying P&L and revenue targets for the role.
- Automate repetitive pricing analysis with **AI agents built on Claude**, the same discounting and packaging monitoring this req asks a Pricing Committee resource to maintain.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Led **global pricing strategy** for the Industrial BU (a multi-$100M business) across multiple product lines, carrying P&L and revenue targets.
- Recovered **$700K+ in margin in 2 quarters** running the Bleeders & Leakers program: structured negotiations built on competitive gaps and documented customer willingness to pay.
- Raised **distributor and channel-partner margins from 53% to 61%** in under 2 quarters by repricing parts sold through distribution.
- Shipped the FY2026 **Bleeders & Leakers Power BI dashboard**: 1,200 pricing opportunities against a $627M target across 3 regions, 4 product families and 20 product lines, with discounting analysis, win rate and stage distribution, surfacing $433M in margin gaps for leadership to prioritize.
- Drove **+12% YoY revenue** and +8% market share through price realignment benchmarked across 10+ key players, shaping AP26 revenue models and multimillion-dollar customer quotes with senior executives.
- Ran **leadership decks** and OKRs with weekly and quarterly business reviews, the same cadence a Pricing Committee runs on.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Owned **GTM and launch pricing** for new sensing products across North America and Europe, driving $2M+ first-year revenue.
- Ran **30+ customer interviews** with OEMs and distributors to document willingness to pay and pain points ahead of pricing decisions.
- Rolled out **sales enablement** (decks, case studies) for 50+ reps, improving win rates 30%, the same proposal-readiness work this req asks for ahead of Pricing Committee review.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Owned **marketing budgets of $100K/month** across multiple business units, building the plans and forecasts presented to leadership for approval.
- **Cut CPA 25%** through bid optimization and A/B testing across paid channels.
- Automated the **WordPress and Pardot** lead flow, cutting cost per lead 50%.
- Hired and managed marketing team members; ran **leadership decks** and OKRs with weekly and quarterly reviews.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** across an 8-client, $15K-$90K/month portfolio, cutting client churn 50% through proactive account strategy.
- Delivered **3x ROAS in one month** for a leading fashion brand via full-funnel restructuring: shopping feed cleanup, smart bidding and creative refresh.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Delivered **16x ROAS** for D2C e-commerce brands by rebuilding Google Merchant Center and Meta catalog feeds.
- Lifted a B2B e-commerce startup's **conversion rate 36%** and revenue 25% through database audits and dashboard-driven recommendations.

PROJECTS

SwipeHire

- Launched an AI job-matching platform zero-to-one and modeled **3 subscription pricing tiers** from competitor benchmarks and willingness-to-pay signals, the same packaging-to-pricing-tier exercise a SaaS Pricing Committee runs.
