EXPERIENCE

Founder & CEO, PriceKeel

May 2026 - Present

- Founded **PriceKeel**, a decision-integrity layer for B2B SaaS deal pricing that reads a live discount exception and recommends an explainable guardrail from each company's own closed-won and closed-lost deals, the same transactional-economics judgment this role makes on in-store payment terms.
- Runs the company's **CRM, CPQ, forecast and pipeline reviews and deal approvals** independently end to end, with minimal oversight.
- Designed the **audit trail** that gives Finance an explainable record behind every pricing decision, while running pilots with early customers and raising the company's first round.

Strategic Marketing III, Applied Materials

Jun 2026 - Present

- Sizes the **semiconductor market** with Sales, Engineering and Accounts, turning technical and field input into one view for executives.
- Builds **competitive, value-based pricing** and forecasts its inflection points, carrying P&L and revenue targets for the role.
- Automates **repetitive analysis** with AI agents built on Claude, then turns the output into leadership decks and weekly and quarterly business reviews.

Pricing Lead, Sensata Technologies

Jul 2025 - May 2026

- Recovered **\$700K+ in margin in two quarters**, leading the Bleeders & Leakers program: negotiations built independently on competitive gaps and customer willingness to pay.
- Repriced **distributor and channel-partner economics from 53% to 61%** in under two quarters, the same transaction-economics lever this role pulls on in-store payment pricing.
- Built the **FY2026 Bleeders & Leakers Power BI dashboard**: 1,200 pricing opportunities against a \$627M target, surfacing \$433M in margin gaps for executives to prioritize.
- Shaped **multimillion-dollar customer quotes** and site-transition economics with senior executives.
- Drove **+12% YoY revenue and +8% market share** through price realignment informed by competitive benchmarking across 10+ key players.

Product & Growth Marketing, Sensata Technologies

Sep 2024 - Jun 2025

- Owned **GTM for new sensing products** across North America and Europe, including pricing and channel economics, driving \$2M+ first-year revenue.
- Drove a **100+ feature backlog** with engineering in Agile across 3 regions, accelerating releases 25% and cutting time-to-market 20%, the same autonomous cross-functional delivery this role runs project by project.

Digital Marketing Manager, Plug Power

Oct 2022 - Jul 2023

- Owned **\$100K/month in marketing budgets** across multiple business units, building the plans and forecasts presented to leadership for approval.
- Automated the **Mar-Tech stack** (Salesforce, Adobe Analytics, GA, Google Tag Manager) for closed-loop reporting.

Customer Success Manager, Pixis (AI Platform)

Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** for an 8-client, \$15K-\$90K/month portfolio, using Amplitude and Tableau to decide where to reallocate budget.

Senior Digital Marketing Analyst, GenY Medium

Jan 2020 - Jun 2021

- Ran **database audits and built dashboards**, improving data accessibility 30% for cross-regional stakeholders.

PROJECTS

SwipeHire

- Built **SwipeHire** (Python, OpenAI API, React) zero to one, modeling 3 subscription pricing tiers from competitor benchmarks and willingness-to-pay signals, the same elasticity-driven pricing logic behind an in-store transaction model.
