- Runs **PriceKeel** end to end as a one-person cross-functional operation, owning product, pilots and the investor narrative with nobody else to hand the undefined problem to.
- Built the company's **CRM, CPQ and deal-approval process** from zero, the kind of simple system a fast-moving team needs once nothing like it exists yet.

- Carries **P&L and revenue targets** while running the OKR cadence and leadership decks behind weekly and quarterly business reviews.
