SUMMARY

Zero-to-one product builder who takes a new product from defined scope to a priced, launched subscription model. Founded PriceKeel, a decision-integrity layer for B2B SaaS deal pricing, where I designed the evidence-vetting guardrail engine and the audit trail that proves which data sources earned a seat in the deal, plus the CRM, CPQ and deal-approval flow it runs on. At Sensata, built the FY2026 Bleeders & Leakers Power BI dashboard that scored 1,200 pricing opportunities against a \$627M target and surfaced \$433M in margin gaps, and ran 30+ customer interviews that helped turn a new sensing-product launch into \$2M+ first-year revenue. Strategic Marketing III at Applied Materials today, automating recurring analysis with AI agents built on Claude. MS in Marketing Analytics (STEM), Simon Business School.

EXPERIENCE

Founder & CEO, PriceKeel

May 2026 - Present

- Founded **PriceKeel**, a decision-integrity layer for B2B SaaS deal pricing, owning product definition, the commercial model and GTM end to end from zero, the same end-to-end ownership a new subscription line needs from first beta to GA.
- Designed the **evidence-vetting guardrail engine** and the audit trail that proves which signals earned a seat in the deal, backed by evidence Finance can audit; built the CRM, CPQ and deal-approval flow it runs on, and am running pilots and raising the company's first round.

Strategic Marketing III, Applied Materials

Jun 2026 - Present

- Sized the **semiconductor market** with Sales, Engineering and Accounts, building forecasting models across multiple product groups, the same cross-functional rigor a notification product needs from platform engineering.
- Automates recurring analysis with **AI agents built on Claude**, carries P&L and revenue targets, and runs OKRs with weekly and quarterly business reviews.

Pricing Lead, Sensata Technologies

Jul 2025 - May 2026

- Built the FY2026 **Bleeders & Leakers Power BI dashboard**: 1,200 pricing opportunities scored against a \$627M target across 3 regions, 4 product families and 20 product lines, surfacing \$433M in margin gaps for leadership to prioritize, the same KPI-instrumentation and benchmarking discipline a coverage, precision and recency scorecard needs.
- Recovered **\$700K+ in margin in 2 quarters** by negotiating against competitive gaps and customer willingness to pay, and raised distributor margins from 53% to 61%, the commercial judgment that carries into vendor and licensing terms.

Product & Growth Marketing, Sensata Technologies

Sep 2024 - Jun 2025

- Owned the **product roadmap** for new sensing products, managing a 100+ feature backlog in Agile across 3 regions, accelerating releases 25% and cutting time-to-market 20%; zero-to-one ownership from definition to launch.
- Ran **30+ customer interviews** with OEMs and distributors to find pain points before committing to a product bet, and built the evidence-based competitive read that lifted CSAT 22%.
- Defined **KPI frameworks in SQL and GA4** across 50K+ connected devices, isolating the usage signals that separated activated accounts from stalled ones and lifting feature adoption 18%.

Digital Marketing Manager, Plug Power

Oct 2022 - Jul 2023

- Owned **\$100K/month marketing budgets** across multiple business units, building the forecasts and plans presented to leadership for data-backed budget approval.

Customer Success Manager, Pixis (AI Platform)

Jul 2021 - Sep 2022

- Evaluated and ran an **8-client media portfolio** (\$15K-\$90K/month per client), carrying P&L and revenue targets and deciding which channels and vendors earned continued spend.
- Used **Amplitude and Tableau** to interrogate campaign data directly across 30+ campaigns, turning findings into optimization calls that lifted ROAS 40%.

Senior Digital Marketing Analyst, GenY Medium

Jan 2020 - Jun 2021

- Audited **databases and dashboards**, improving data accessibility 30%, the same direct-data-interrogation habit this role asks for over waiting on someone else's analysis.
- Lifted a B2B e-commerce startup's **conversion rate 36%** and revenue 25% by closing gaps its signup-to-purchase funnel exposed.

PROJECTS

SwipeHire

- Shipped an **AI job-matching platform** zero-to-one: wrote the PRD, scoped the MVP, modeled 3 subscription pricing tiers from competitor benchmarks and willingness-to-pay signals, and owned the GA4 analytics stack that lifted activation 25% across 50+ early users.

Safran Market Sizing & GTM (Simon Vision Consulting)

- Led a **5-consultant team** through Safran's TAM/SAM/SOM, analyzing 150+ facilities and 10+ competitors to narrow to a SAM of 28, then built the evidence-based positioning for 3 B2B product lines that leadership signed off on.
