SUMMARY

Pipeline-generation marketer who already builds the AI-native automation this role asks for, not buys it. Automated repetitive analysis with Claude AI agents at Applied Materials, ran \$100K/month paid-search and paid-social budgets to a -25% CPA at Plug Power, and built the SQL + GA4 KPI framework across 50K+ connected devices that surfaced high-intent buyer cohorts at Sensata. Cut client churn 50% managing an 8-client, \$15K-\$90K/month portfolio at Pixis. MS in Marketing Analytics from Simon Business School.

EXPERIENCE

Strategic Marketing III, Applied Materials

Jun 2026 - Present

- Builds **forecasting and market-sizing models** across multiple product groups, turning field data into the kind of demand signal a pipeline-generation engine needs to target the next real buyer, not a stale segment.
- Automates repetitive analysis work with **AI agents built on Claude**, the same build-your-own-tools, automate-ruthlessly instinct this role is written for.
- Aligns **Sales, Engineering and Accounts** into one market view while carrying P&L and revenue targets, running the OKR cadence that holds a growth function accountable to the number, not just the activity.

Pricing Lead, Sensata Technologies

Jul 2025 - May 2026

- Shipped the FY2026 **Power BI dashboard** tracking 1,200 pricing opportunities against a \$627M target across 3 regions and 20 product lines, with pipeline funnel, win rate and stage distribution built in, the same self-service, define-your-own-metrics dashboarding this role runs on.
- Recovered **\$700K+ in margin in 2 quarters** and raised distributor and channel-partner margins from 53% to 61%, competitive-gap and willingness-to-pay analysis doing the work a segmentation model does elsewhere.

Product & Growth Marketing, Sensata Technologies

Sep 2024 - Jun 2025

- Led **digital marketing and paid launch campaigns** across email and paid channels, generating +35% qualified leads, the top-of-funnel-to-pipeline motion this role owns end to end.
- Built **KPI frameworks in SQL and GA4** across 50K+ connected industrial devices, identifying high-intent cohorts and adoption signals, the intent-based targeting layer this role wants built in-house rather than bought.
- Owned **GTM for new sensing products** across North America and Europe (positioning, pricing, channel, launch), driving \$2M+ first-year revenue.
- Ran **30+ customer interviews** with OEMs and distributors to sharpen enterprise buyer personas, insights that raised CSAT 22%.

Digital Marketing Manager, Plug Power

Oct 2022 - Jul 2023

- Owned **\$100K/month paid budgets** across multiple business units, running Paid Search and Paid Social across Google Ads, Microsoft Ads, Meta and LinkedIn with bid optimization and A/B testing that cut CPA 25%.
- Automated the **Mar-Tech stack** (Salesforce, Adobe Analytics, GA, Google Tag Manager) for closed-loop reporting, tying SEM performance straight to MQL quality and stage 1 opportunities across 50+ inbound campaigns.
- Automated the **WordPress + Pardot lead flow**, cutting cost per lead 50% and raising organic search visibility 35% by closing keyword-strategy gaps.
- Lifted conversion 20% and cut CPA 15%** through customer research that translated confused-prospect friction into sharper copy and targeting across the paid mix.

Customer Success Manager, Pixis (AI Platform)

Jul 2021 - Sep 2022

- Hired and managed an **8-person team running 8 client accounts** with per-client media budgets of \$15K-\$90K/month, carrying P&L and revenue targets across paid and retail media channels.
- Used **Amplitude and Tableau** across 30+ campaigns to lift ROAS 40%, and cut client churn 50% through proactive account strategy and channel diversification.
- Ran **PPC across international, non-English markets**, retail media (Amazon Ads, Criteo) and iOS app UA (Appsflyer, Adjust).

PROJECTS

SwipeHire

- Built an **AI job-matching platform** (Python, OpenAI API, React) zero-to-one with no existing playbook: wrote the PRD, scoped the MVP, and shipped auto-tailored resumes and visa-aware matching, onboarding 50+ early users.
- Instrumented the **GTM and analytics stack** (GA4, GTM, event tracking, funnel dashboards) alone, running 8+ A/B tests and 12+ user interviews that lifted activation 25%, the same build-it-yourself, test-every-campaign instinct this role runs on.
