EXPERIENCE

Strategic Marketing III, Applied Materials

- **Carries P&L and revenue targets** while running OKRs and leadership reviews that drive roadmap execution and business outcomes Sales and Engineering can act on, the cross-functional cadence Engineering, Design, Data, Operations and GTM all need.
- **Builds AI agents on Claude** that automate repetitive analysis work to reduce operational burden while staying reviewable, the same trust-and-accuracy bar an AI-native, resident-facing workflow has to clear before it ships.

Product & Growth Marketing, Sensata Technologies

Sep 2024 - Jun 2025

- **Owned the product roadmap** and a 100+ feature backlog for sensor solutions, writing PRDs and driving roadmap execution with Engineering across 3 regions in Agile sprints, cutting time-to-market 20% and accelerating releases 25%.
- **Ran 30+ customer interviews** with OEMs and distributors to deeply understand operational pain points before committing to a product bet, translating findings into platform decisions that lifted CSAT 22%.
- **Built KPI frameworks in SQL and GA4** across 50K+ connected industrial devices, isolating the usage signals that separated adopted workflows from stalled ones, lifting adoption, efficiency and outcomes 18%.

- **Built sales enablement** (decks, case studies) for 50+ reps shipping high-impact launch materials, and ran competitor and customer analysis across EMEA and the US, improving win rates 30%.

Customer Success Manager, Pixis (AI Platform)

- **Modeled 3 subscription pricing tiers** from competitor benchmarks and willingness-to-pay signals, and owned the GTM and analytics stack (GA4, GTM, event tracking) that ran 8+ A/B tests and 12+ user interviews, lifting activation 25%.
