ADHITHYA ROKHITH BHASKAR

Pricing & Business Optimization | Founder, PriceKeel | Cost-to-Price Translation, Margin Recovery, Deal-Based Pricing

San Francisco Bay Area, CA | +1-929-563-9974 | arokhith@gmail.com | LinkedIn | Portfolio

SUMMARY

Pricing strategist who recovered **$700K+ in margin in 2 quarters** and lifted distributor margins from 53% to 61% at Sensata. Builds competitive, cost-aware pricing for the AI, HPC and high-performance compute equipment market as Strategic Marketing III at Applied Materials, automating repetitive pricing analysis with Claude AI agents. Founder and CEO of PriceKeel, a decision-integrity layer for B2B deal pricing now running pilots, and holds an MS in Marketing Analytics and an Advanced Pricing Certification.

SKILLS

Pricing & Business Optimization: Global Price Strategy, Cost Structure to Competitive Price Translation, Component & Channel-Level Cost Analysis, Margin Recovery, Channel/Distributor Pricing, Discount Governance, Rebate & Contract Pricing, Deal-Based Pricing, Price Elasticity, Value-Based Pricing
Supplier & Deal Negotiation: Supplier/Partner Pricing Negotiations, Scenario Analysis, Cost Transparency, Multimillion-Dollar Customer Quotes, Cross-Functional Deal Execution (Sales, Product, Procurement, Supply Chain, Engineering)
Analytics & Executive Reporting: SQL, Power BI, Tableau, Excel (advanced), R, Regression, Forecasting Models, Executive-Ready Reports & Recommendations
Revenue Operations & Systems: CRM & CPQ Configuration, Forecast & Pipeline Reviews, Deal Desk, Win-Rate & Pipeline-Stage KPIs, Salesforce
Leadership & Operating: P&L and Revenue Targets, Budget Planning, Leadership Decks, OKRs, AI Agents (Claude), Jira, Confluence, Notion

EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Founded **PriceKeel**, a decision-integrity layer for B2B deal pricing that turns a live discount exception into an explainable guardrail before a deal closes, the same deal-specific pricing call this role makes on every customer configuration.
- Built the **scenario-analysis engine** behind that guardrail, translating each deal's cost, margin and competitive position into a pricing recommendation from a company's own closed-won and closed-lost history.
- Set up and runs the company's **CRM, CPQ configuration**, forecast and pipeline reviews, and deal approvals while running pilots and raising its first round.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Builds **competitive, cost-aware pricing** for the semiconductor equipment market behind AI, HPC and high-performance computing deployments, the same compute-infrastructure category AMAX prices into.
- Translates **component-level cost and supply input** from Sales, Engineering and Accounts into one market view, forecasting demand inflection points so pricing keeps pace.
- Automates **repetitive pricing analysis** with AI agents built on Claude, carrying P&L and revenue targets and building the leadership decks and OKR reviews that turn findings into executive-ready recommendations.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Owned **end-to-end pricing strategy** for the Industrial BU (a multi-$100M hardware business) across multiple product lines, carrying P&L and revenue targets, the same single-category pricing ownership this role holds for AMAX's server and GPU-system lines.
- Recovered **$700K+ in margin in 2 quarters** leading the Bleeders & Leakers program, translating component- and channel-level cost structures into renegotiated deal terms built on competitive gaps and customer willingness to pay.
- Raised **distributor and channel-partner margins from 53% to 61%** in under 2 quarters by repricing parts sold through distribution, the margin-improvement-across-the-supply-chain mandate this role is hiring for.
- Built the **FY2026 Bleeders & Leakers Power BI dashboard** monitoring 1,200 pricing opportunities against a $627M target across 3 regions, 4 product families and 20 product lines, surfacing $433M in margin gaps for leadership to prioritize.
- Drove **+12% YoY revenue and +8% market share** by building AP26 revenue models and multimillion-dollar customer quotes with senior executives and suppliers, informed by competitive benchmarking across 10+ key players.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Owned **GTM for new sensing products** across North America and Europe, including pricing and channel structuring, driving $2M+ first-year revenue.
- Ran **30+ customer interviews** with OEMs and distributors to pressure-test willingness to pay and quotation approaches ahead of launch.
- Delivered **sales enablement** decks and case studies for 50+ reps, improving win rates 30%.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Presented **marketing budgets of $100K/month** across multiple business units to leadership for approval, building the plans and forecasts behind them.
- Automated the **Mar-Tech stack** (Salesforce, Adobe Analytics, GA, Google Tag Manager) for closed-loop, data-quality reporting.
- Led **customer research and campaign optimization** that drove a 20% increase in conversion rate and a 15% reduction in CPA.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** managing an 8-person team across 8 client accounts with per-client budgets of $15K-$90K/month, cutting client churn 50%.
- Reported **leadership-ready recommendations** to senior management in weekly and quarterly business reviews, building the decks that carried them.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Rebuilt **Google Merchant Center and Meta catalog feeds**, delivering 16x ROAS for D2C e-commerce brands.
- Lifted **a B2B e-commerce startup's conversion rate 36% and revenue 25%** through database audits and dashboard-driven optimization.

PROJECTS

Optimal Pricing Prediction Model

- Developed **R-based pricing optimization models** using linear regression to forecast demand elasticity and identify profit-maximizing price points across product configuration scenarios, the same cost-to-price scenario analysis this role runs across server and GPU-system configurations.
