- Gave Finance **evidence-backed visibility** into every pricing decision through an audit trail built to replace legacy CPQ and deal-desk tooling, selling the framework directly to RevOps, Sales leadership and Finance.
- Set up and run the company's **CRM and CPQ configuration**, deal approvals and forecast/pipeline reviews, running pilots with early B2B customers while raising the company's first funding round.

- Built a Power BI dashboard tracking **1,200 pricing opportunities against a $627M target** across 3 regions and 4 product families, surfacing $433M in margin gaps for leadership.
- Shaped **AP26 revenue models and multimillion-dollar customer quotes** with senior executives, driving +12% YoY revenue and +8% market share via benchmarked price realignment.
