## EXPERIENCE

**Founder & CEO, PriceKeel** May 2026 - Present

- Built **PriceKeel's GTM operating system** from a blank page: the CRM and CPQ, forecast and pipeline review methodology, and deal approvals a RevOps team would normally inherit rather than stand up from zero.
- Designed a **guardrail engine** that recommends an explainable discount guardrail learned from each company's own closed-won and closed-lost deals.
- Built an **audit trail Finance can audit** on every pricing decision, selling directly to RevOps, Sales leadership and Finance against legacy CPQ and deal-desk tooling.
- Runs pilots with early customers and is **raising the company's first funding round**, carrying the forecast and pipeline cadence personally.

**Strategic Marketing III, Applied Materials** Jun 2026 - Present

- Sizes the **semiconductor market** with Sales, Engineering and Accounts, turning field and technical input into one forecasting view.
- Builds **value-based pricing and forecasting models** across multiple product groups, tracking demand and capacity inflection points as they happen.
- Runs **AI agents built on Claude** to automate recurring market and competitive research, carrying P&L and revenue targets for the role.
- Builds **leadership decks** and runs OKRs on pricing performance, with weekly and quarterly business reviews in the same cadence this role's QBRs and forecast calls need.

**Pricing Lead, Sensata Technologies** Jul 2025 - May 2026

- Shipped the **FY2026 Bleeders and Leakers Power BI dashboard**: 1,200 pricing opportunities against a $627M target across 3 regions, with pipeline funnel, win rate, avg $/win and stage distribution feeding every quarterly review.
- Carried **P&L and revenue targets** for a multi-$100M business while shaping AP26 revenue models and site-transition strategy directly with senior executives.
- Raised **distributor and channel-partner margins from 53% to 61%** in under two quarters by repricing parts sold through distribution, after benchmarking 10+ competitors to drive +12% YoY revenue and +8% market share.
- Flagged **profitability upside above 50%** on individual line items through a BU-wide Power BI price-increase model built for the broader pricing team.

**Product & Growth Marketing, Sensata Technologies** Sep 2024 - Jun 2025

- Owned **GTM for new sensing products** across North America and Europe (positioning, pricing, channel, launch), driving $2M+ first-year revenue as the launch's commercial owner.
- Ran **KPI frameworks in SQL and GA4** across 50K+ connected devices to track adoption signals, lifting feature adoption 18%.
- Armed **50+ sales reps** with enablement decks and case studies, improving win rates 30% on live deals.
- Defined the **product roadmap and launch calendar** for sensor solutions with Engineering across 3 regions, cutting time-to-market 20%.

**Digital Marketing Manager, Plug Power** Oct 2022 - Jul 2023

- Owned **$100K/month marketing budgets** across multiple business units, building the plans and forecasts leadership approved each cycle.
- Automated the **Mar-Tech stack** (Salesforce, Adobe Analytics, GA, Google Tag Manager) for closed-loop reporting that tied spend to pipeline.
- Hired and managed a **marketing team**, building leadership decks and running OKRs with weekly and quarterly business reviews.

**Customer Success Manager, Pixis (AI Platform)** Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** for an 8-client, 8-person portfolio with $15K-$90K monthly budgets per client, cutting churn 50% through proactive account strategy.
- Used **Amplitude and Tableau** across 30+ campaigns to analyze user behavior, lifting campaign ROAS 40%.
- Reported recommendations to **senior management**, feeding voice-of-customer insight back into product and pricing decisions.

## PROJECTS

**SwipeHire**

- Shipped an **AI job-matching platform** zero-to-one (Python, OpenAI API, React): wrote the PRD, scoped the MVP, and shipped the product and GTM system before a single user existed.
- Ran the **GTM and analytics stack** (GA4, GTM, event tracking, funnel dashboards), running 8+ A/B tests and 12+ user interviews that lifted activation 25% across 50+ early users.
