Lifted distributor margins from 53% to 61% in the same program, then founded PriceKeel, a decision-integrity layer for B2B SaaS deal pricing now in pilots, where I built the audit trail that gives Finance an explainable record behind every pricing decision. EXPERIENCE

Founder & CEO, PriceKeel

May 2026 - Present

- Founded **PriceKeel**, a decision-integrity layer for B2B SaaS deal pricing that flags a discount exception inside the deal platform using guardrails learned from each company's own closed-won and closed-lost deals, the same comparison-group logic behind a structured pricing test.
- Recorded every pricing decision in an **audit trail** with evidence Finance can review, the traceable documentation this role keeps for data sources, model versions, test designs, approvals and pricing changes.
- Set up and run the company's **CRM and CPQ, forecast and pipeline reviews, and deal approvals**, while running pilots with early customers and raising the first round from investors.

Strategic Marketing III, Applied Materials

Jun 2026 - Present

- Modeled **competitive, value-based pricing** for a fast-growing semiconductor market, forecasting its inflection points across product configurations so pricing recommendations keep pace with real demand.
- Built **forecasting and market-sizing models** across multiple product groups, turning field and technical input from Sales, Engineering and Accounts into one quantified market view.
- Automated repetitive pricing analysis with **AI agents built on Claude**, freeing time for the recurring model-refresh and reporting work a Senior Pricing Analyst owns every cycle.

Pricing Lead, Sensata Technologies

Jul 2025 - May 2026

- Led **global pricing strategy** for Sensata's Industrial BU (a multi-\$100M business) across multiple product lines and price bands, carrying P&L and revenue targets.

- Built the FY2026 **Power BI dashboard** behind that program, tracking 1,200 pricing opportunities with pipeline funnel, regional scorecards, win rate, avg \$/win and stage distribution across 3 regions, 4 product families and 20 product lines.
- Raised **distributor and channel-partner margins from 53% to 61%** in under 2 quarters by repricing parts sold through distribution, informed by competitive benchmarking across 10+ key players.
- Drove **+12% YoY revenue and +8% market share** through price realignment, partnering with senior executives and Finance on AP26 financial revenue models and multimillion-dollar customer quotes.

PROJECTS

Optimal Pricing Prediction Model
