SUMMARY

Founder and operator who takes a strategic initiative from blank page to a **P&L-owning program**, then hires the team to run it. Builds PriceKeel (B2B SaaS deal pricing, in pilots and raising its first round) end to end, with no cofounder to split the work. Has carried P&L and revenue targets at Sensata, Pixis and Applied Materials, built the KPI dashboards and OKR governance that keep 1,200+ scattered pricing opportunities trackable at once, hired and managed teams at three companies, and recovered $700K+ in margin in 2 quarters. Automates repetitive analysis with Claude AI agents. A generalist across different functions and various initiatives, built to run point on the key metrics a chief of staff or entrepreneur in residence is judged on.

EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Founded **PriceKeel**, a decision-integrity layer for B2B SaaS deal pricing, after identifying a governance gap no CPQ tool solves, and designed its guardrail engine and audit trail end to end.
- Own the company's **full P&L and operating rhythm** myself: CRM/CPQ, forecast and pipeline reviews and deal approvals, the generalist range a founder-stage initiative demands before it can scale.
- Running **pilots with early customers** and raising PriceKeel's first round, researching competitive and buyer benchmarks to shape the roadmap as the initiative scales past one person.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Partner with **Sales, Engineering and Accounts** to turn scattered field and technical input into one management view of a fast-growing semiconductor market.
- Run the **OKR cadence** with weekly and quarterly business reviews, the governance layer that surfaces the one deviation needing attention before it compounds.
- Carry **P&L and revenue targets** for the role, building forecasting and market-sizing models across multiple product groups.
- Automate repetitive analysis work with **AI agents built on Claude**, freeing time for the judgment calls a dashboard cannot make.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Shaped **AP26 revenue models** and site-transition strategy with senior executives for a multi-$100M Industrial BU.
- Built **leadership decks** and ran the OKR cadence (weekly and quarterly business reviews) that kept 1,200 pricing opportunities against a $627M target visible across 3 regions.
- Headed the **Bleeders and Leakers margin program** end to end, from dashboard design to the negotiations that recovered $700K+ in margin in 2 quarters.
- Promoted to **Pricing Lead** from Product and Growth Marketing in 10 months, taking on full P&L ownership ahead of the standard track.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Owned **GTM for new sensing products** across North America and Europe, driving $2M+ in first-year revenue.
- Drove the **cross-functional product roadmap** across 3 regions, managing a 100+ feature backlog with Engineering.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Hired and managed the **marketing team** while owning $100K/month budgets across multiple business units, building the plans and forecasts presented to leadership for approval.
- Automated the **WordPress and Pardot** lead flow and the Mar-Tech stack, designing the reporting system the business needed to scale.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Hired and managed an **8-person team** running 8 client accounts on individual P&L targets, cutting client churn 50% through account strategy I designed.
- Built **leadership decks** and ran OKRs with weekly and quarterly business reviews, reporting recommendations directly to senior management.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Bridged **regional marketing, localization and analytics teams** as the main liaison, resolving cross-functional handoffs with no formal authority over any of them.
- Ran database audits and built **one reporting view** from scattered records, lifting data accessibility 30% for the teams that depended on it.

PROJECTS

SwipeHire

- Grew and managed the **SwipeHire team**, built board decks and ran OKRs while shipping an AI job-matching platform zero-to-one (Python, OpenAI API, React), onboarding 50+ early users.
- Defined the **ICP and GTM** from competitor teardowns and willingness-to-pay research, modeling 3 subscription pricing tiers before a single customer signed up.

Safran Market Sizing & GTM (Simon Vision Consulting)

- Led a **5-consultant team** benchmarking 150+ target facilities and 10+ competitors, narrowing TAM/SAM/SOM from 170 facilities to a SAM of 28 and presenting the recommendation to Safran leadership.
