- Translating a **research-grade product** (a decision-integrity layer that scores discount exceptions off closed-won and closed-lost deal data) into client use cases technical and commercial buyers both understand.
- Owning the **pipeline end to end**: CRM, CPQ, forecast and pipeline reviews, deal approvals, with an audit trail Finance can trace.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Partners with **Engineering, Sales and Accounts** on a fast-growing semiconductor market, turning technical input into one market view and value-based pricing, the exact research-to-GTM translation Deccan does with frontier labs.
- Automates repetitive market and competitive analysis with **AI agents built on Claude**, the kind of research literacy this role brings to AI buyer conversations.
- Carries **P&L and revenue targets** and runs OKRs with weekly and quarterly business reviews, building the leadership decks that track them.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026
