SUMMARY

Founder and operator who takes a **hypothesis to a funded, piloted business** in one motion. Runs PriceKeel, a B2B SaaS pricing company now in pilots and raising its first round, while carrying P&L and revenue targets as Strategic Marketing III at Applied Materials. Built the Bleeders and Leakers margin-recovery program at Sensata from a single hypothesis: tested it against real deal data, then scaled it with Sales, Engineering and Finance stakeholders across a multi-$100M operations-heavy industrial business, recovering $700K+ in 2 quarters. Runs market research, customer discovery and experiment design end to end, turns validated concepts into leadership-ready business cases and OKR-tracked pilots, and automates repetitive research with AI agents built on Claude.

- Carries **P&L and revenue targets** for the role and runs the OKR cadence and leadership decks behind weekly and quarterly business reviews.
