## SUMMARY

Runs **CRM, CPQ, forecast and pipeline reviews** end to end as founder of PriceKeel, with Salesforce proficiency and a Python/SQL analytics core. ## EXPERIENCE

### Founder & CEO, PriceKeel

May 2026 - Present

- Run **CRM and CPQ configuration**, forecast and pipeline reviews, and deal approvals end to end, the same ownership this role asks for over Salesforce or an equivalent platform.
- Designed the **audit trail** that gives Finance a documented, explainable record behind every pricing exception, catching data quality concerns before they reach a report.
- Running **pilots** with early B2B customers and raising the company's first round, partnering with Sales and Finance the same way this GTM operations seat sits between both.

### Strategic Marketing III, Applied Materials

Jun 2026 - Present

- Partner with **Sales, Engineering and Accounts** to build forecasting models across multiple product groups, reconciling field and technical input into one view others can act on.
- Automate repetitive revenue analysis with **AI agents built on Claude**, cutting manual work out of recurring reporting.
- Carry **P&L and revenue targets** for the role, and run **OKRs with weekly and quarterly business reviews** that keep forecast inputs current and defensible.

### Pricing Lead, Sensata Technologies

- Built the FY2026 **Bleeders and Leakers Power BI dashboard** covering 1,200 pipeline opportunities against a \$627M target across 3 regions, 4 product families and 20 product lines, with **win rate, avg \$/win and stage distribution by salesperson** - independently generated reporting that diagnosed **\$433M in margin gaps** for leadership to act on.
- Recovered **\$700K+ in margin in 2 quarters** by tracing each flagged gap from dashboard signal to root cause to a negotiated fix.
- Raised **distributor and channel-partner margins from 53% to 61%** by correcting the underlying pricing and routing logic, not a one-time override.
- Shaped **AP26 revenue models**, site transition strategies and multimillion-dollar customer quotes alongside senior executives, forecasting at the regional and account level.
- Presented **leadership decks** and ran OKRs with weekly and quarterly business reviews that kept pipeline data and forecast assumptions accurate between cycles.
