## SUMMARY

Revenue operator who runs **CRM, CPQ**, forecast reviews and deal approvals end to end as founder of PriceKeel. The company's only ops resource, built the funnel-stage, scoring and pipeline-review work a first RevOps hire owns, and automates the repeatable parts with **Claude AI agents** at Applied Materials, the same agent-native habit. Built Sensata's Bleeders and Leakers pipeline (1,200 opportunities against a $627M target) and recovered **$700K+ in margin** in two quarters; comfortable bringing an agency's GTM motions in-house.

## EXPERIENCE

**Founder & CEO, PriceKeel** May 2026 - Present

- Run **CRM and CPQ** configuration, forecast reviews and deal approvals end to end for PriceKeel, the company's only ops resource, the same solo build a first RevOps hire owns.
- Connected deal, usage and pricing data across the **CRM, CPQ and discount engine** so the guardrail model reads closed-won and closed-lost history automatically instead of through manual exports.
- Documented the **audit trail** and discount-decision workflow as a clear v1, the kind of system a second hire can pick up and scale without a rebuild.
- Sells PriceKeel's audit trail to **RevOps, Sales leadership and Finance** stakeholders while raising its first round, the kind of GTM metrics a board asks for.

**Strategic Marketing III, Applied Materials** Jun 2026 - Present

- Builds **forecasting models** across multiple product groups, partnering with Sales, Engineering and Accounts to turn field input into one demand view against P&L and revenue targets.
- Automates repetitive revenue analysis with **AI agents built on Claude**, the same AI-first instinct for event-lead processing and routing automation this role is built around.
- Runs the team's **operating cadence**: leadership and board-style decks, OKRs, and weekly and quarterly business reviews.

**Pricing Lead, Sensata Technologies** Jul 2025 - May 2026

- Led **global pricing strategy** for the Industrial BU (a multi-$100M business) across multiple product lines, carrying P&L and revenue targets through enterprise, multi-stakeholder deal cycles.
- Built the FY2026 **Bleeders and Leakers Power BI dashboard**: 1,200 pipeline opportunities against a $627M target, tracked by stage, win rate, avg $/win and salesperson, the funnel-definition and scoring work a RevOps build starts with.
- Recovered **$700K+ in margin** in two quarters running that program, negotiating deal-level fixes built on competitive gaps and customer willingness to pay.
- Shaped **AP26 revenue models** and multimillion-dollar customer quotes with senior executives, raising distributor and channel-partner margins from 53% to 61%.

**Product & Growth Marketing, Sensata Technologies** Sep 2024 - Jun 2025

- Built **sales enablement** materials for 50+ reps, lifting win rates 30% across the deal pipeline, the Sales-Marketing alignment this seat runs day to day.
- Ran **launch campaigns** across email and paid channels, generating +35% qualified leads that fed straight into pipeline and stage-1 reporting.
- Mapped **high-intent adoption cohorts** with KPI frameworks in SQL and GA4 across 50K+ connected devices, the scoring logic a PQL alert runs on.

**Digital Marketing Manager, Plug Power** Oct 2022 - Jul 2023

- Automated the **WordPress and Pardot lead flow** end to end, standing up the routing and nurture logic that cut cost per lead 50%.
- Automated the **Mar-Tech stack** (Salesforce, Adobe Analytics, GA, Google Tag Manager) for closed-loop reporting, connecting systems that previously needed manual pulls.
- Tied **SEM performance to MQL quality** and stage 1 opportunities across 50+ inbound campaigns, closing the loop between spend and pipeline.

**Customer Success Manager, Pixis (AI Platform)** Jul 2021 - Sep 2022

- Hired and managed an **8-person team** running 8 clients ($15K-$90K/month each), carrying P&L and revenue targets end to end.

- Used **Amplitude and Tableau** on user behavior across 30+ campaigns, lifting campaign ROAS 40%.

**Senior Digital Marketing Analyst, GenY Medium** Jan 2020 - Jun 2021

- Lifted a B2B e-commerce startup's **conversion rate** 36% and revenue 25% with database audits and dashboards that raised data accessibility 30%.
- Aligned **regional marketing, localization and analytics** teams as the main liaison, the cross-functional glue a GTM build leans on.
