SUMMARY

Founder and operator who turns a CEO's priorities into **tracked execution plans** with owners, milestones and metrics. Builds PriceKeel (B2B SaaS deal pricing, in pilots and raising its first round) end to end, owning the CRM/CPQ workflow and the audit trail Finance can check against the data. Has carried P&L and revenue targets at Sensata, Pixis and Applied Materials, turned a messy $433M pricing backlog into a dashboard-driven recovery plan that closed $700K+ in margin in 2 quarters, hired and managed teams at three companies, and is comfortable working alongside compliance, legal and finance in a regulated business. Automates repetitive reporting with Claude AI agents. A generalist built to take a founder's priorities from brain-dump to done.

SKILLS

EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Founded **PriceKeel**, a decision-integrity layer for B2B SaaS deal pricing, after identifying a governance gap no CPQ tool solves, and built the guardrail engine and audit trail end to end.
- Own the company's **full P&L and operating rhythm** myself: CRM/CPQ, forecast and pipeline reviews and deal approvals, the single-owner range a project with no natural owner demands before it scales.
- Running **pilots with early customers** and raising PriceKeel's first round, preparing the data room and investor materials myself.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Partner with **Sales, Engineering and Accounts** to turn scattered field input into one management view, closing the loop on initiatives no single team owns.
- Run the **OKR cadence** with weekly and quarterly business reviews, the governance layer that flags the one deviation needing attention before it compounds.
- Carry **P&L and revenue targets** for the role, building forecasting and market-sizing models that track performance across multiple product groups.
- Automate repetitive reporting with **AI agents built on Claude**, cutting the manual hours a process-improvement mandate is judged on saving.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Mapped how **1,200 pricing opportunities** moved through a $627M target across 3 regions and 20 product lines, then built the Power BI dashboard that turned the mapped workflow into a prioritized action list.
- Shaped **AP26 revenue models** and site-transition strategy directly with senior executives on a multi-$100M Industrial BU.
- Headed the **Bleeders and Leakers margin program** end to end, documenting the before-and-after metric that recovered $700K+ in margin and raised distributor margins 53% to 61% in 2 quarters.
- Promoted to **Pricing Lead** from Product and Growth Marketing in 10 months, taking full P&L ownership ahead of the standard track.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Owned **GTM for new sensing products** across North America and Europe, driving $2M+ in first-year revenue.
- Drove the **cross-functional product roadmap** across 3 regions, managing a 100+ feature backlog with Engineering in Agile.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Hired and managed the **marketing team** while owning $100K/month budgets across multiple business units, building the plans and forecasts presented to the leadership team for approval.
- Redesigned the **WordPress and Pardot** lead-flow process, cutting cost per lead 50%, the kind of before-and-after metric a process redesign is measured on.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Hired and managed an **8-person team** running 8 client accounts on individual P&L targets, cutting client churn 50% by redesigning the account-strategy process end to end.
- Built **leadership decks** and ran OKRs with weekly and quarterly business reviews, reporting recommendations directly to senior management.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Bridged **regional marketing, localization and analytics teams** as the main liaison, closing handoffs that sat between teams with no natural owner.

PROJECTS

SwipeHire

- Grew and managed the **SwipeHire team**, built board decks and ran OKRs while shipping an AI job-matching platform zero-to-one (Python, OpenAI API, React), onboarding 50+ early users.
- Defined the **ICP and GTM** from competitor teardowns and willingness-to-pay research, modeling 3 subscription pricing tiers before a single customer signed up.

Safran Market Sizing & GTM (Simon Vision Consulting)

- Led a **5-consultant team** benchmarking 150+ target facilities and 10+ competitors, narrowing TAM/SAM/SOM from 170 facilities to a SAM of 28 and presenting the recommendation to Safran leadership.
