SUMMARY

Founder and operator who runs a **founder's agenda end to end**: product, GTM and fundraising. Builds PriceKeel, a B2B SaaS deal-pricing startup now in pilots and raising its first round, while carrying P&L and revenue targets as Strategic Marketing III at Applied Materials. Built a **\$627M sizing model and recovered \$700K+ in margin in two quarters** at Sensata by turning a messy cross-functional problem into one number executives could act on, and hired and managed an 8-person account team at Pixis. - Designed the **guardrail engine and audit trail** that gives Finance and Sales leadership one system of record for pricing decisions, replacing legacy CPQ tooling.

- Builds **forecasting and value-based pricing models** across multiple product groups, translating raw signal into the inflection points leadership plans against.
- Runs the **OKR cadence and leadership decks** behind weekly and quarterly business reviews, keeping cross-functional teams on one operating rhythm while carrying P&L and revenue targets.
