SUMMARY

Ships AI products hands-on, from zero-to-one build to the enterprise account that adopts it. Built SwipeHire end to end on Python and the OpenAI API, then wired an agentic Claude API reasoning layer into a live NSE trading bot. Owns customer outcomes with evidence, not anecdotes: 30+ OEM and distributor interviews plus SQL/GA4 KPI frameworks on 50K+ connected devices at Sensata lifted CSAT 22% and adoption 18%. Ran 8 enterprise accounts end to end on an AI platform at Pixis, cutting churn 50%. Automates recurring analysis at Applied Materials with Claude AI agents built in-house.

EXPERIENCE

Strategic Marketing III, Applied Materials

Jun 2026 - Present

- **Partners with Sales, Engineering and Accounts** to size the semiconductor market, turning fragmented field and technical input into one shared view a customer-facing pitch can stand on.
- **Builds forecasting and market-sizing models** across multiple product groups, the same evidence-before-the-ask habit a deployment plan needs to earn trust immediately.
- **Automates repetitive analysis with AI agents built on Claude**, freeing time for the higher-stakes work only a human in the room can do.

Pricing Lead, Sensata Technologies

Jul 2025 - May 2026

- **Shaped multimillion-dollar customer quotes** and AP26 revenue models alongside senior executives, the high-stakes, evidence-backed deal work a forward-deployed seat lives in.
- **Built a BU-wide Power BI price-increase model** flagging line items where a change could lift profitability more than 50%, data pulled and packaged before anyone asked for it.

Product & Growth Marketing, Sensata Technologies

Sep 2024 - Jun 2025

- **Ran 30+ customer interviews** with OEMs and distributors to find the real pain point before proposing a fix, not after.
- **Owned the product roadmap and a 100+ feature backlog** with engineering in Agile across 3 regions, cutting time-to-market 20% and accelerating releases 25%.
- **Instrumented KPI frameworks in SQL and GA4** on 50K+ connected industrial devices, pulling usage and adoption signals into every roadmap call instead of a hunch.
- **Built sales enablement** for 50+ reps and briefed executives on positioning, switching between a boardroom pitch and a technical spec sheet without losing either audience.

Digital Marketing Manager, Plug Power

Oct 2022 - Jul 2023

- **Automated the Mar-Tech stack** (Salesforce, Adobe Analytics, GA, Google Tag Manager) for closed-loop reporting, wiring the integration by hand instead of waiting on someone else to.

Customer Success Manager, Pixis (AI Platform)

Jul 2021 - Sep 2022

- **Owned outcomes for an 8-client portfolio** on an AI adtech platform across the full customer journey, carrying P&L and revenue targets while configuring each account's setup by hand.
- **Cut client churn 50%** through proactive account strategy and channel diversification, catching risk before a renewal conversation forced it.
- **Fed voice-of-customer insights back to product** while running PPC across international markets and retail media, the same field-to-roadmap loop a forward-deployed seat runs on.

Senior Digital Marketing Analyst, GenY Medium

Jan 2020 - Jun 2021

- **Rebuilt product feeds end to end** for a D2C e-commerce brand, delivering 16x ROAS off a fix nobody else had scoped.

PROJECTS

SwipeHire

- **Shipped an AI job-matching platform** (Python, OpenAI API, React) zero-to-one: wrote the PRD, scoped the MVP, hand-configured the matching logic and onboarded 50+ early users.

NSE Paper-Trading Bot

- **Wired an agentic Claude API reasoning layer** into a live Python scanner on NSE market data (nsepython, yfinance), layering LLM-driven news and catalyst analysis on top of rule-based technical scoring (EMA, RSI, ATR).
