Revenue Operations | HubSpot CRM Governance, Reporting & Pipeline Analytics | Cross-Functional Sales Systems

San Francisco Bay Area, CA | +1-929-563-9974 | arokhith@gmail.com | LinkedIn | Portfolio

Built Sensata's **Bleeders & Leakers Power BI pipeline**: 1,200 opportunities against a $627M target, $433M in margin gaps surfaced. That pipeline only held because every stage reconciled cleanly across 3 regions and 20 product lines, the same CRM data hygiene a Sales HubSpot owner runs on every report. Runs **CRM, CPQ, forecast and pipeline reviews** and deal approvals as founder of PriceKeel, with HubSpot and Salesforce administration behind it, and automates repetitive revenue analysis with **Claude** AI agents.

SKILLS

Revenue Operations & CRM: HubSpot, CRM Requirements & Governance, Pipeline & Sales Data Analysis, Forecast & Pipeline Reviews, Deal Approvals, Salesforce, Pardot, CRM & CPQ Configuration
Reporting, Data & Systems: SQL, Power BI, Tableau, Databricks, Excel (advanced), Dashboard & Report Building, Cross-System Data Troubleshooting
Cross-Functional Operations: Sales Enablement & User Training, Marketing/IT/Finance/Customer Service Coordination, B2B, B2C & DTC Channel Support
AI & Automation: AI Agents (Claude) for Recurring Revenue Analysis
Tools: Jira, Confluence, Notion

EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Functions as the **CRM and CPQ owner**, running forecast and pipeline reviews and deal approvals end to end, the same single-point system governance a Sales CRM functional owner carries alone.
- Built the **audit trail** that gives Finance documented evidence for every pricing decision, the data-hygiene and process-documentation discipline a cross-functional CRM seat runs on daily.
- Designed a **guardrail engine** that flags discount exceptions against patterns in a company's own closed-won and closed-lost pipeline data, the same pipeline-data troubleshooting instinct this role applies to Sales records.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Builds **forecasting and market-sizing models** across multiple product groups, partnering with Sales, Engineering and Accounts to turn field and CRM input into one forecast instead of three competing ones.
- Automates repetitive **revenue and pipeline analysis** with AI agents built on Claude, the hands-on AI-tool fluency a data-heavy sales-ops seat rewards.
- Runs **OKRs** with weekly and quarterly business reviews, carrying P&L and revenue targets for the role.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Built the FY2026 **Bleeders & Leakers Power BI dashboard**: 1,200 pipeline opportunities against a $627M target across 3 regions, 4 product families and 20 product lines, tracking win rate, avg $/win and stage distribution by salesperson, the same report-and-dashboard build this seat owns for Sales.
- Recovered **$700K+ in margin in 2 quarters** by mining that pipeline data for competitive gaps and customer willingness to pay.
- Raised **distributor and channel-partner margins from 53% to 61%** in under 2 quarters by repricing parts sold through distribution, coordinating the numbers with Finance.
- Shaped **AP26 revenue models** and multimillion-dollar customer quotes with senior executives, reconciling pipeline data across regions before it reached leadership.
- Drove **+12% YoY revenue and +8% market share** via price realignment benchmarked against 10+ competitors.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Trained and built **sales enablement** (decks, case studies) for 50+ reps, the direct sales-user training line this seat runs across the field team.
- Generated **+35% qualified leads** through digital marketing and launch campaigns, handing a cleaner pipeline to the sales team downstream.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Automated the **WordPress + Pardot lead flow**, cutting cost per lead 50%, the same CRM-to-marketing-system integration work this seat applies across HubSpot and its connected tools.
- Automated the **Mar-Tech stack** (Salesforce, Adobe Analytics, GA, Google Tag Manager) for closed-loop reporting, troubleshooting data flow between systems the way this seat reconciles CRM against ERP and BI data.
- Owned **$100K/month budgets** across multiple business units, building the plans and forecasts presented to leadership for approval.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** for an 8-client, $15K-$90K/month-per-client portfolio spanning B2B and DTC accounts, cutting client churn 50% through proactive account strategy.
- Kept **enterprise case studies and sales materials** current across 30+ campaigns, supporting a 20% improvement in sales team performance.
- Used **Amplitude and Tableau** on user behavior across 30+ campaigns, lifting campaign ROAS 40%, the same cross-tool reporting hygiene this seat runs across CRM, ERP and BI data.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Ran database audits and built **dashboards** that lifted data accessibility 30%, the same reporting discipline a Sales CRM governance seat depends on.
- Lifted a B2B e-commerce startup's **conversion rate 36%** and revenue 25%, tying data cleanup work directly to a measurable pipeline outcome.

PROJECTS

SwipeHire

- Launched an **AI job-matching platform** zero-to-one (Python, OpenAI API, React), owning the data model and analytics stack end to end instead of just operating inside someone else's, the same instinct to govern a system's data this HubSpot ownership seat rewards.
- Ran the **GTM and analytics stack** (GA4, event tracking, funnel dashboards) solo, the same single-owner reporting rigor a lean Sales Operations seat runs day to day.
