SUMMARY

Founder building **PriceKeel's governance** and audit-trail process from scratch, the same process-excellence mandate a Center of Excellence seat runs. Led Sensata's **Bleeders & Leakers program**, standardizing a pricing review that had no single owner across 3 regions and 4 product families into one Power BI dashboard, then recovered $700K+ of the $433M in gaps it surfaced within 2 quarters. Partners across Sales, Engineering and Accounts at Applied Materials and led a 5-consultant team at Safran presenting structured recommendations to leadership. Automates repetitive work with Claude AI agents.

EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Founded PriceKeel and designed the guardrail engine's **governance framework**: an explainable discount-approval SOP learned from each company's own closed-won and closed-lost deals, with no existing playbook to follow.
- Shipped the **audit trail** that gives Finance evidence for every pricing decision, selling the governance model to RevOps, Sales leadership and Finance against legacy CPQ tooling.
- Runs the company's **CRM, CPQ, forecast and pipeline reviews** and deal approvals as the standing review cadence, while running pilots with early customers and raising its first round.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Turns **Sales, Engineering and Accounts** input into one market-sizing view for a fast-growing semiconductor segment, the kind of special initiative a Center of Excellence owns end to end.
- Builds **leadership decks** and runs the OKR cadence with weekly and quarterly business reviews, driving closure and accountability on action items across teams.
- Carries **P&L and revenue targets** for the role, building forecasting and market-sizing models across multiple product groups.
- Automates repetitive analysis with **AI agents built on Claude**, freeing time for the judgment calls a fast-moving team actually needs.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Led the **Bleeders & Leakers program**, standardizing a pricing-review process across 3 regions, 4 product families and 20 product lines that previously had no single owner, surfacing $433M in margin gaps for leadership to prioritize.
- Built the **FY2026 Power BI dashboard and tracking framework** for leadership: 1,200 pricing opportunities against a $627M target, with pipeline funnel, regional scorecards and win-rate views reviewed weekly.
- Recovered **$700K+ in margin in 2 quarters** and raised distributor and channel-partner margins from 53% to 61% by institutionalizing a governance process for every repriced deal.
- Aligned **senior executives** on AP26 revenue models and site-transition strategy, presenting structured updates to leadership; promoted from Product & Growth Marketing to Pricing Lead in 10 months.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Owned **GTM for new sensing products** across North America and Europe, driving $2M+ in first-year revenue from a standing start.
- Defined and executed the **product roadmap** across 3 regions, managing a 100+ feature backlog with Engineering in Agile and keeping cross-functional timelines on track.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Hired and managed **marketing team members**, then built the plans and forecasts presented to the leadership team for budget approval.
- Owned **$100K/month in marketing budgets** across multiple business units, building the leadership decks that got them approved.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Hired and managed an **8-person team** running 8 direct-to-consumer clients on $15K-$90K/month media budgets, carrying P&L and revenue targets.
- Ran **leadership decks** and the OKR cadence with weekly and quarterly business reviews; cut client churn 50% through proactive account strategy.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Acted as the main **liaison across regional marketing, localization and analytics teams** for D2C e-commerce brands, closing process gaps no single function owned.

PROJECTS

SwipeHire

- Shipped an **AI job-matching platform** zero-to-one (Python, OpenAI API, React): wrote the PRD, hired and managed the team, and onboarded 50+ early users.
- Ran **board decks** and the OKR cadence for the project, structuring priorities and tracking action items the same way as every seat above.
