SUMMARY

Deal desk and pricing lead who recovered **$700K+** in margin in 2 quarters and lifted channel margins 53% to 61% at Sensata. Built the deal, pipeline and renewal-margin analytics behind that repricing, then closed the multimillion-dollar customer quotes and AP26 revenue models it fed. Now founds PriceKeel, a CRM/CPQ-driven deal-approval and audit-trail layer for B2B SaaS deal pricing in pilots, and automates recurring deal and pricing analysis with Claude AI agents as Strategic Marketing III at Applied Materials. MS in Marketing Analytics and an Advanced Pricing Certification.

EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Founded **PriceKeel**, a decision-integrity layer for B2B SaaS deal pricing that reads a live discount exception inside the deal platform and recommends an explainable guardrail, the same quote-to-approval judgment a deal desk makes on every non-standard deal.
- Built the **guardrail engine** behind it: a discount curve learned from each company's own closed-won and closed-lost deals, mapped to an approval matrix so exceptions above threshold escalate instead of sliding through.
- Runs hands-on **CRM, CPQ, price book, quote-to-approval workflow and deal approvals** end to end, plus the Finance audit trail, while running pilots and raising its first round.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Builds **competitive, value-based pricing** for a fast-growing semiconductor market, forecasting demand inflection points so multi-year deal pricing keeps pace as volume scales.
- Turns field and technical input into **forecasting and market-sizing models** across multiple product groups for pricing and deal decisions.
- Automates repetitive deal and pricing analysis with **AI agents built on Claude**, carrying P&L and revenue targets alongside it.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Led **global pricing strategy** for the Industrial BU (a multi-$100M business) across multiple product lines and regions, owning price books and carrying P&L and revenue targets.
- Recovered **$700K+ in margin in 2 quarters** leading the Bleeders and Leakers program, building the deal-by-deal business case from competitive gaps and customer willingness to pay instead of a blanket discount policy.
- Raised **distributor and channel-partner margins from 53% to 61%** in under 2 quarters by repricing renewal terms sold through distribution, so the gain held past the next renewal cycle.
- Built the FY2026 **Bleeders and Leakers Power BI dashboard**: 1,200 pricing opportunities against a $627M target across 3 regions, 4 product families and 20 product lines, with pipeline funnel, win rate, avg $/win and stage distribution, surfacing $433M in margin gaps for leadership to prioritize.
- Closed **AP26 revenue models** and multimillion-dollar customer quotes with senior executives on non-standard deal terms, driving +12% YoY revenue and +8% market share through price realignment benchmarked against 10+ competitors.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Owned **GTM pricing and channel decisions** for new sensing products across North America and Europe, driving $2M+ first-year revenue on multi-year hardware-plus-software deals.
- Ran **30+ customer interviews** with OEMs and distributors to test willingness to pay ahead of launch pricing.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Presented **$100K/month marketing budgets** across multiple business units to leadership for approval, building the plans and forecasts behind them.
- Cut **CPA 25%** through bid optimization and A/B testing across Google, Microsoft and Meta.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** managing an 8-person team across 8 client accounts with per-client budgets of $15K-$90K/month.
- Cut **client churn 50%** through proactive account strategy and vertical playbooks.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Delivered **16x ROAS** for D2C brands and lifted a B2B e-commerce startup's revenue 25% by rebuilding catalog feeds and running database audits.

PROJECTS

SwipeHire

- Modeled **3 subscription pricing tiers** for an AI job-matching platform from competitor benchmarks and willingness-to-pay signals, the same price-book and discount-curve work a deal desk scales across customer segments.
