- Runs **AI agents built on Claude** that act on forecasting and market analysis instead of just summarizing it, the same reports-versus-acts distinction a marketer has to explain to a CMO.
- Carries **P&L and revenue targets** for the role, building the leadership decks and OKRs that stand behind every pricing and positioning call.

- Interviewed **30+ OEM and distributor buyers** to pressure-test the new narrative before it shipped, routing findings back to product and raising CSAT 22%.
- Built the **sales enablement and launch content** (decks, case studies) that the new positioning had to hold up under for 50+ reps, lifting win rates 30%.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Shaped **multimillion-dollar customer quotes** with senior executives and AP26 revenue models, the numbers discipline that knows which claims are cleared for an external deck.
- Drove **+12% YoY revenue and +8% market share** through price realignment benchmarked against 10+ competitors, flagging where the data supported a claim and where it did not.
