SUMMARY

Product education marketer who turns complex features into simple, sharp explanations reps and customers actually use. Built the GTM that launched Sensata's sensing product line (\$2M+ first-year revenue), then built the sales enablement, case studies and use-case walkthroughs behind a 30% rep win-rate lift, and ran 30+ customer interviews to get grounded in how users actually got stuck before writing a word. Now Strategic Marketing III at Applied Materials, automating recurring analysis with AI agents built on Claude, the same eliminate-manual-work habit this role asks for in scaling an education engine end to end. MS in Marketing Analytics from Simon Business School.

SKILLS

Product Marketing & Education: GTM Strategy, Positioning & Messaging, Launch Plans, Case Studies & Sales Decks, Sales Enablement, Market Research, Competitive Intelligence, Segmentation, Personas

Product & User Research: User Research, Jobs-to-be-Done, PRD Writing, Roadmapping, Backlog Management, Agile/Scrum, Prioritization (RICE/ICE)

Analytics: SQL, GA4, Amplitude, Power BI, Tableau, A/B & Multivariate Testing, Cohort & Funnel Analysis, Excel (advanced)

Tools: AI Agents (Claude), Notion, Confluence, Jira, Figma (basics)

EXPERIENCE

Strategic Marketing III, Applied Materials

Jun 2026 - Present

- Synthesizes technical input from **Sales, Engineering and Accounts** into one semiconductor market view, turning deep product complexity into a single explainable read that gives leadership clarity fast.
- Builds **value-based pricing models** that forecast market inflection points, the same turn-complexity-into-one-number instinct this role applies to explaining a feature in one simple sentence.
- Automates repetitive analysis with **AI agents built on Claude**, the exact trade-manual-effort-for-a-system habit this posting asks for in scaling delivery of product education content.

Pricing Lead, Sensata Technologies

Jul 2025 - May 2026

- Turned pricing data into a **single explainable read** for leadership: built the FY2026 Bleeders and Leakers Power BI dashboard tracking 1,200 opportunities against a \$627M target, tracing findings to \$700K+ recovered in two quarters.
- Presented **multimillion-dollar customer quotes** and AP26 revenue models directly to senior executives, the same distill-it-live skill this role asks for on webinars.

Product & Growth Marketing, Sensata Technologies

Sep 2024 - Jun 2025

- Owned **GTM for new sensing products** across North America and Europe (positioning, pricing, channel, launch), driving \$2M+ first-year revenue.
- Translated technical features into **customer value propositions**, lifting conversion 15% on priority launches, the same make-it-obvious translation this role needs for every new capability.
- Ran **30+ customer interviews** with OEMs and distributors to find exactly where they got stuck, insights that raised CSAT 22%, the same obsess-over-the-user habit this role runs on.
- Built **sales enablement** (decks, case studies) for 50+ reps, lifting win rates 30% by teaching them the product better, faster, and in the terms customers actually use.
- Tracked **KPI frameworks in SQL and GA4** across 50K+ connected devices, surfacing adoption signals that lifted feature adoption 18%, measuring outcomes instead of just shipping content.
- Defined the **product roadmap** for sensor solutions and managed a 100+ feature backlog with Engineering in Agile across 3 regions, coordinating the dependencies and timelines it takes to get a release out the door, cutting time to market 20%.

Digital Marketing Manager, Plug Power

Oct 2022 - Jul 2023

- Ran **customer research** that lifted conversion 20% and cut CPA 15%, translating what confused prospects into copy and targeting that removed the confusion.
- Owned **\$100K/month budgets** across multiple business units, building the plans and forecasts presented to the leadership team for approval.

Customer Success Manager, Pixis (AI Platform)

Jul 2021 - Sep 2022

- Cut **client churn 50%** through proactive account strategy, channel diversification and vertical playbooks, the same activation-to-retention loop this role runs on webinars and education content.
- Kept **enterprise case studies and sales materials** current, supporting a 20% improvement in sales team performance, the same always-current education library this role owns.
- Used **Amplitude and Tableau** to read user behavior across 30+ campaigns and act on what it showed, lifting ROAS 40%, the same watch-the-data-then-adjust loop this role runs weekly.

PROJECTS

SwipeHire

- **Wrote the PRD and scoped the MVP** for an AI job-matching platform (Python, OpenAI API, React), shipped auto-tailored resumes and visa-aware matching zero-to-one, and onboarded 50+ early users.
- Instrumented **8+ A/B tests and 12+ user interviews** on the onboarding and matching flow, the same iterate-fast-on-format experiment loop this role runs to turn new users into power users, lifting activation 25%.
