SUMMARY

Deal-desk builder who balances revenue against margin instead of picking one. At PriceKeel, the decision-integrity layer for B2B SaaS deal pricing I founded, I run a guardrail engine that reviews every discount exception deal-by-deal against competitive dynamics, the same discount-approval mandate this team owns across global and small/midsize deals alike. At Sensata, I recovered $700K+ in margin in 2 quarters and lifted distributor margins from 53% to 61%, balancing revenue and margin goals across regions and product lines rather than maximizing either one alone. I also automate repetitive pricing analysis at Applied Materials with Claude AI agents, the agentic-AI habit this posting calls out as a bonus. MS in Marketing Analytics with an Advanced Pricing Certification.

EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Reviews every **discount exception** deal-by-deal against competitive dynamics and customer willingness to pay through a guardrail engine, maximizing gross margin without slowing the deal Sales is trying to close.
- Designed the **audit trail** that gives Finance evidence for every discount decision, the deal-desk process a team needs to scale from multi-million-dollar global deals down to small and midsize ones without a bottleneck.
- Set up and run the company's **CRM and CPQ**, including pricing rules, deal approvals and forecast and pipeline reviews; running pilots and raising the company's first round.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Builds **competitive, value-based pricing** for a fast-growing semiconductor market, forecasting its inflection points so pricing balances revenue against margin as demand shifts across multiple product groups.
- Sizes the **semiconductor market** with Sales, Engineering and Accounts, turning field and technical input into forecasting models that carry the role's P&L and revenue targets.
- Automates repetitive pricing analysis with **AI agents built on Claude**, the agentic coding-assistant habit this posting flags as a bonus for business-process automation.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Led **global pricing strategy** for the Industrial BU (a multi-$100M business) across 3 regions, 4 product families and 20 product lines, balancing revenue and margin goals instead of maximizing either alone.
- Built the FY2026 Bleeders and Leakers **Power BI dashboard** ranking 1,200 pricing opportunities against a $627M target, analyzing competitive dynamics and discounting patterns deal-by-deal and surfacing $433M in margin gaps by product line.
- Recovered **$700K+ in margin in 2 quarters** running the Bleeders and Leakers program: review and negotiation on each discount exception, built on competitive gaps and customer willingness to pay.
- Raised distributor and channel-partner margins **from 53% to 61%** by repricing the catalog sold through distribution, partnered with executives on multimillion-dollar customer quotes, and drove **+12% YoY revenue and +8% market share** against 10+ competitors.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Owned **GTM, pricing and channel strategy** for new sensing products across North America and Europe, from requirements through launch, driving $2M+ first-year revenue.
- Ran **30+ customer interviews** with OEMs and distributors to test willingness to pay and surface pricing friction before launch, then built the KPI framework in SQL and GA4 that tracked adoption against it.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Owned **marketing budgets of $100K/month** across multiple business units, building the plans and forecasts for leadership approval, and led Paid Search/Paid Social bid optimization that cut CPA **25%** across Google, Microsoft and Meta.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** for an 8-client, $15K-$90K/month portfolio, hiring and managing the 8-person team that ran it and cutting client churn **50%** through proactive account strategy and channel diversification.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Delivered **16x ROAS** for D2C e-commerce brands and lifted a B2B startup's revenue 25% by rebuilding catalog feeds and running database and SEO audits.

PROJECTS

SwipeHire

- Shipped an **AI job-matching platform** zero-to-one, writing the PRD and scoping the MVP from requirements through launch, then modeled 3 subscription pricing tiers from competitor and willingness-to-pay benchmarks, the same packaging-to-governance loop a deal desk prices against per segment.
