SUMMARY

Product marketer who turned **30+ customer interviews** into a roadmap decision and a 15% conversion lift on Sensata's technical launches. Runs that same insight-to-launch loop with A/B tests and a SQL + GA4 KPI framework across 50K+ connected devices, translating the findings into compelling narratives that drive real business impact for professionals worldwide. Automates the repetitive side of that analysis as Strategic Marketing III at Applied Materials with Claude AI agents, and pairs it with consumer-product GTM at GenY Medium and Pixis (16x ROAS, a 40% ROAS lift from Amplitude and Tableau behavior data) and an MS in Marketing Analytics from Simon.
