EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Founded **PriceKeel**, a decision-integrity layer for B2B SaaS deal pricing that recommends an explainable discounting-framework guardrail learned from each company's own closed-won and closed-lost deals, the packaging-and-discount problem a monetization team owns at scale.
- Built the **audit trail** that gives Finance and deal-desk teams evidence for every discount call on complex deals, and run the company's CRM/CPQ, forecast reviews and deal approvals end to end.
- Ran **pilots** with early B2B customers and raised the company's first round, folding Sales-versus-Finance pricing initiatives into one governed, cross-functional process.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Built **competitive, value-based pricing** for a fast-growing, highly technical semiconductor equipment market serving enterprise manufacturing customers, running the financial modeling and margin-impact analysis that keeps pricing ahead of demand inflection points.
- **Turned field and customer research** into one pricing and forecasting model across multiple product groups with Sales, Engineering and Accounts, carrying P&L and revenue targets for the role.
- Automated repetitive **pricing analysis and market research using AI tools** (agents built on Claude), cutting manual work out of recurring financial models so more time goes to the actual pricing recommendation.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Led the **development of global pricing and packaging strategy** for the Industrial BU (a multi-$100M business) across multiple product lines, running competitive analysis and financial modeling while carrying P&L and revenue targets.
- Recovered **$700K+ in margin in 2 quarters** running the Bleeders & Leakers program: cross-functional negotiations with Sales and Finance built on competitive gaps and customer willingness to pay.
- Monitored **key pricing metrics** (win rate, avg $/win, stage distribution, margin impact) across 1,200 pricing opportunities ranked against a $627M target in a Power BI dashboard built for FY2026, surfacing $433M in margin gaps for leadership.
- Raised **distributor and channel-partner margins from 53% to 61%** and drove +12% YoY revenue and +8% market share, partnering with senior executives on AP26 revenue models and multimillion-dollar customer quotes.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Owned **monetization and GTM strategy for new sensing products** across North America and Europe (positioning, pricing, channel, launch), driving $2M+ first-year revenue.
- Ran **30+ customer interviews** with OEMs and distributors to test willingness to pay and packaging preferences, feeding segmentation and pricing recommendations ahead of launch.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Forecasted **marketing budgets of $100K/month** across multiple business units, building the financial models presented to leadership for approval, and cut CPA **25%** through bid optimization.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** for an 8-client, $15K-$90K/month portfolio, cutting client churn **50%** through proactive account strategy and channel diversification.
- Lifted **campaign ROAS 40%** analyzing user behavior across 30+ campaigns in Amplitude and Tableau, and ran retail-media and iOS UA campaigns across non-English markets.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Delivered **16x ROAS** for D2C e-commerce brands and lifted a B2B startup's revenue **25%** by rebuilding catalog feeds and running database and SEO audits.

PROJECTS

SwipeHire

- Modeled **3 subscription pricing tiers and packaging options** from competitor benchmarks and willingness-to-pay signals while shipping an AI job-matching platform zero-to-one, the same tier-and-packaging logic a multi-module SaaS platform's monetization strategy has to defend.
