EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Built PriceKeel's **CRM, CPQ configuration and deal-approval workflow from zero**, the same no-rulebook-to-inherit build a first Sales Ops hire is asked to stand up.
- Runs the company's **forecast and pipeline reviews** end to end, tracking forecast accuracy and flagging risk before it shows up in the number.
- Created the **audit trail** that records every pricing decision with evidence Finance can audit, the same account-ownership precedent a first Rules of Engagement call has to invent before anyone can enforce it.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Builds **forecasting and market sizing models** across multiple product groups, tracking inflection points so planning stays ahead of demand.
- Automates repetitive revenue analysis with **AI agents built on Claude**, the same automate-what-repeats instinct this role pairs with a Sales Systems engineer.
- Carries **P&L and revenue targets** and builds leadership decks, running **OKRs** with weekly and quarterly business reviews, the same operating cadence that scales as a sales team grows.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Built the FY2026 **Bleeders and Leakers Power BI dashboard**, a sales metrics layer covering 1,200 opportunities against a $627M target across 3 regions, 4 product families and 20 product lines, with win rate, avg $/win and stage distribution by salesperson.
- Recovered **$700K+ in margin in 2 quarters** by resolving pricing disputes from the data, negotiating against competitive gaps and customer willingness to pay instead of precedent.
- Raised **distributor and channel-partner margins from 53% to 61%** in under 2 quarters by repricing parts sold through distribution, the same channel-conflict call a Rules of Engagement owner has to make and document.
- Ran **AP26 revenue models** and multimillion-dollar customer quotes with senior executives, the same capacity-and-quota planning this role runs with Finance.
- Presented **leadership decks** and ran **OKRs** with weekly and quarterly business reviews, tracking forecast accuracy for leadership to plan against.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Shipped **sales enablement** (decks, case studies) for 50+ reps, lifting win rates 30%, the same rep-facing rollout a documented sales ops function hands off to a 25+ rep team.
- Led digital marketing and launch campaigns generating **+35% qualified leads**, tying lead quality back to pipeline coverage downstream.
- Designed **KPI frameworks in SQL and GA4** across 50K+ connected industrial devices, identifying high-intent cohorts that lifted feature adoption 18%, the same raw-data-to-model work this role asks for without a template.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Automated the **Mar-Tech stack (Salesforce, Adobe Analytics, GA, Google Tag Manager)** for closed-loop reporting, the same admin-level data model fluency this role runs day to day.
- Owned **marketing budgets of $100K/month** across multiple business units, building the plans and capacity forecasts presented to leadership for approval.
- Automated the **WordPress and Pardot lead flow**, cutting cost per lead 50% while tying SEM performance to MQL quality and stage 1 opportunities.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Rebuilt dashboards and ran database audits that improved **data accessibility 30%**, the same single-source-of-truth instinct behind a sales metrics layer built from zero.

PROJECTS

SwipeHire

- Launched an AI job-matching platform **zero-to-one**: wrote the PRD, scoped the MVP, and owned the GTM and analytics stack, the same stand-up-a-function-from-scratch builder's track record this role calls for.
- Ran **8+ A/B tests** and 12+ user interviews, lifting activation 25%, and hired and managed the team running OKRs with weekly and quarterly reviews.
