- Builds competitive, **value-based pricing** for a fast-moving market, forecasting inflection points before a competitor can box out a deal.
- Builds **forecasting and market-sizing models** across multiple product groups, the same discipline a quarterly competitive read needs to turn into a decision leadership can act on.
- Automates recurring research with **AI agents built on Claude**, cutting a week of competitive and market analysis turnaround to hours.
- Carries **P&L and revenue targets** for the role, running the team's operating cadence, leadership decks, OKRs and quarterly business reviews that keep the competitive read tied to plan.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Drove **competitive benchmarking** across 10+ key players, informing the price realignment that drove +8% market share and +12% YoY revenue.
- Built the **FY2026 Bleeders and Leakers Power BI dashboard**, tracking 1,200 opportunities against a $627M target and surfacing $433M in margin gaps for leadership to prioritize before a competitor closed the deal.
- Shaped **AP26 revenue models** and multimillion-dollar customer quotes with senior executives, turning competitive and financial analysis into field-ready guidance for site-transition strategy.
- Raised **distributor and channel-partner margins** from 53% to 61% in under 2 quarters by repricing parts sold through distribution, informed by the same competitive gaps this role would track.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Ran **competitor and customer analysis** across EMEA and the US, turning purchasing patterns and competitor-share shifts into GTM worth $2M+ in first-year revenue.

- Owned **$100K/month marketing budgets** across multiple business units, building the plans and forecasts presented to leadership for approval.
