EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Founded **PriceKeel**, a decision-integrity layer for B2B SaaS deal pricing that flags a discount exception inside the deal platform before a deal closes, the same nonstandard-sale review a Deal Desk function runs on every complex deal.
- Designed the **guardrail engine** that recommends an explainable discount guardrail learned from each company's own closed-won and closed-lost deals, standardizing business rules the way a repeatable deal playbook does.
- Created the **audit trail** that gives Finance an evidence-backed record behind every pricing exception, the same deal-governance discipline a Finance and Legal stakeholder reviews before a deal closes.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Builds **competitive, value-based pricing and inflection-point forecasting** for a fast-growing semiconductor market in partnership with Sales, Engineering and Accounts, the same multi-stakeholder deal structuring Sales, FP&A and Product expect from a Deal Desk partner.
- Automates repetitive deal and pricing analysis with **AI agents built on Claude**, the applied AI-in-deal-desk habit this role is scored against.
- Carries **P&L and revenue targets** while building forecasting and market-sizing models across multiple product groups, feeding the margin analysis behind every pricing and packaging rollout.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Led **global pricing strategy** for the Industrial BU (a multi-$100M business), architecting deal structures across multiple product lines and carrying P&L and revenue targets.
- Recovered **$700K+ in margin in 2 quarters** leading the Bleeders and Leakers program: deal-by-deal review of nonstandard terms against competitive gaps and willingness to pay, the same deal-committee call a Senior Manager runs at scale.
- Raised **distributor and channel-partner margins from 53% to 61%** in under 2 quarters by repricing parts sold through distribution, then standardizing the new discount logic into the business rules Sales followed after.
- Built the **FY2026 Bleeders and Leakers Power BI dashboard**: 1,200 pricing opportunities against a $627M target across 3 regions, 4 product families and 20 product lines, surfacing $433M in margin gaps for leadership to prioritize.
- Negotiated **multimillion-dollar customer quotes and AP26 revenue models** with senior executives, driving +12% YoY revenue and +8% market share through competitive-informed price realignment.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Owned **GTM for new sensing products** across North America and Europe, including pricing and channel structuring for launch, driving $2M+ first-year revenue.
- Ran **30+ customer interviews** with OEMs and distributors to pressure-test willingness to pay ahead of a pricing rollout.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Presented **marketing budgets of $100K/month** across multiple business units to leadership for approval, building the plans and forecasts behind them.
- Automated the **Mar-Tech stack** (Salesforce, Adobe Analytics, GA, Google Tag Manager) for closed-loop, data-quality reporting.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** managing an 8-person team across 8 client accounts with per-client budgets of $15K-$90K/month, cutting client churn 50%.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Rebuilt **Google Merchant Center and Meta catalog feeds**, delivering 16x ROAS for D2C e-commerce brands.

PROJECTS

Pricing Optimization Model

- Developed **R-based pricing optimization models** using linear regression to forecast demand elasticity and surface profit-maximizing price points across product scenarios, the same deal-trend analysis a Deal Desk function runs to recommend pricing and packaging business rules.
